NEXT WEEK'S PROGRAM

Cory Buettner is owner of Leo's Grill and Malt Shop formerly Darla's. Cory is a recent owner, has become very involved and influential member of our community. He was instrumental in the Fall Festival Promotion (Worlds largest pumpkin competition, Pumpkin races etc…), the Best Hamburger in Stillwater competition, and testified in Washington in support of the new bridge as examples. He will be introduced by Chuck Buehler.

PROGRAM

Our speaker was Christi Schreyer, owner of Instigate as consultant to help business in recruiting quality new hires. She is trained in Human Resources and works with many organizations. The go to phrase today in her business is Recruitment Process Outsourcing. Basically it helps organizations do a better job in recruiting new employees. Errors that companies make oftentimes is handling candidates poorly and resulting in employer branding where bad reputations are built. You can find out the results by consulting a website called Glassdoor which has the comments of people about your company although many are larger corporations on this website. Today, 89% of corporations use Social Networking for recruiting. She is a big fan of Metrics or helping organizations collect data to measure themselves.

Joke of the Week

The Truth about Internet's creation….

In ancient Israel , it came to pass that a trader by the name of Abraham Com did take unto himself a young wife by the name of Dot. And Dot Com was a comely woman, broad of shoulder and long of leg. Indeed, she was often called Amazon Dot Com.
And she said unto Abraham, her husband, "Why dost thou travel so far from town to town with thy goods when thou canst trade without ever leaving thy tent? And Abraham did look at her as though she were several saddle bags short of a camel load, but simply said, "How, dear?"
And Dot replied, "I will place drums in all the towns and drums in between to send messages saying what you have for sale, and they will reply telling you who hath the best price. And the sale can be made on the drums and delivery made by Uriah's Pony Stable (UPS)."
Abraham thought long and decided he would let Dot have her way with the drums. And the drums rang out and were an immediate success. Abraham sold all the goods he had at the top price, without ever having to move from his tent. To prevent neighboring countries from overhearing what the drums were saying, Dot devised a system that only she and the drummers knew. It was known as Must Send Drum Over Sound (MSDOS), and she also developed a language to transmit ideas and pictures - Hebrew To The People (HTTP).
And the young men did take to Dot Com's trading as doth the greedy horsefly take to camel dung. They were called Nomadic Ecclesiastical Rich Dominican Sybarites, or NERDS.
And lo, the land was so feverish with joy at the new riches and the deafening sound of drums that no one noticed that the real riches were going to that enterprising drum dealer, Brother William of Gates, who bought off every drum maker in the land. And indeed did insist on drums to be made that would work only with Brother Gates' drumheads and drumsticks.

And Dot did say, "Oh, Abraham, what we have started is being taken over by others." And Abraham looked out over the Bay of Ezekiel , or eBay as it came to be known. He said, "We need a name that reflects what we are." And Dot replied, "Young Ambitious Hebrew Owner Operators." "YAHOO," said Abraham. And because it was Dot's idea, they named it YAHOO Dot Com.
Abraham's cousin, Joshua, being the young Gregarious Energetic Educated Kid (GEEK) that he was, soon started using Dot's drums to locate things around the countryside. It soon became known as God's Own Official Guide to Locating Everything (GOOGLE).
