GETTING TO KNOW OUR MEMBERS:

Bob Gray is a Vice President at the 1st State Bank and Trust. He has spent 20 years in the financial field. He attended the University of Iowa and is very active in Stillwater supporting various charities. He is presently the President of the Ponies Touchdown club. He has two boys, Wil attending Iowa and Nick a senior at Stillwater High School.

PROGRAM:

Sara Damon and Junior High AP Human Geography Students were introduced by Bob Gray. Ms Damon has been teaching Social Studies and geography for 26 years and has a special interest in clean drinking water. She and her students have been active in the South Sudan Water Project for several years. Chuck Ochocki, the principal of Stillwater Junior High was also present. Over the past 5 years this project in various schools has raised $50,000. It started in Rochester NY. Our school has used festivals, sold shirts, calendars, necklaces etc. Our Rotary Club has contributed several times. They are going to have a special event in order to break the world record of 474 people carrying jugs of water. This will be Tuesday, May 20 at 1:30 PM. They were also pleased to host one of the Boys of Sudan. They had a short quiz we answered on our smart phones…for example 11% of the worlds people lack clean, safe drinking water!!! Not 7% or 9%.

Paula presented Ms Damon another check from our club for the project.

Joke of the Week

Why men shouldn't write advice columns

Dear John,

I hope you can help me. The other day, I set off for work, leaving my husband in the house watching TV. My car stalled, and then it broke down about a mile down the road, and I had to walk back to get my husband's help. When I got home, I couldn't believe my eyes. He was in our bedroom with the neighbor's daughter!

I am 32, my husband is 34 and the neighbor's daughter is 19. We have been married for 10 years. When I confronted him, he broke down and admitted they had been having an affair for the past six months. He won't go to counseling, and I'm afraid I am a wreck and need advice urgently. Can you please help?

Sincerely, Sheila

Dear Sheila,

A car stalling after being driven a short distance can be caused by a variety of faults with the engine. Start by checking that there is no debris in the fuel line. If it is clear, check the vacuum pipes and hoses on the intake manifold and also check all grounding wires. If none of these approaches solves the problem, it could be that the fuel pump itself is faulty, causing low delivery pressure to the injectors.

I hope this helps,

John
