NEXT WEEK'S PROGRAM:

Manfred Tatzmann, Anoka Rotary will give a presentation on Traumatic Brain Injury. He is a guest of Ed Boeve.

GETTING TO KNOW OUR MEMBERS:

Barb Tischart said she was ill prepared to introduce Jon Stillman so Dave Newman chipped in and said he heard this about Jon Stillman at a meeting that pretty well sums it up…"Jon Stillman has Rotary tattooed to his underwear"!.

PROGRAM:

Jon introduced Tim Mulcrone, who stepped to the podium in the disguise of Dracula in keeping with the Halloween time. He got our attention. The interesting aspect of his talk was to relate our present trauma with Ebola with the days when Polio hit our country in 1946. For those who were present close to that time when…
"it hit children under 5 years old
It left its' victims to an iron lung or twisted limbs
all public events were canceled, no birthday parties, no State Fair
In 1955 a vaccine was discovered but by 1965 there were greater then 300,000 victims.
However Rotary has beaten back the disease where today there are only 201 cases in the world. I has been a long (30 years) fight. We can't let our guard down. It is estimated that 20% of our children are not vaccinated.
Polio virus is usually found tin polluted water, water which has been exposed to fecal matter. So going after clean water is another way to fight the disease.
An excellent talk.

Joke of the Week

This should get your attention.
