Give each applicant 0 - 25 points in each of the 4 factors listed to total a maximum possible score of 100 points. We will need these scores to determine the grantees. By creating this scoring process, we are helping to make sure the process is equitable across the board. This will also help in making final decisions at the Board meeting in June, as we will already have compiled scoring for each application. Please be prepared to talk about specific reasons why you rated an application the way you did.

Things to consider when scoring:
- Does the project address a clear need in our community?
- Did they thoroughly answer the questions?
- Does the application clearly demonstrate the impact our funding will have on the proposed project?
- If this is a repeat awardee do they detail how funding has helped them in the past?
- It might be helpful to read through all applications first, before scoring, in order to determine a possible order of high to low scoring ahead of time

Scores will be calculated during our June Board Meeting.

Next Committee Meeting- June

Non Profit Organization	The level of need for this project in San Leandro	Cost per person in San Leandro impacted / The total cost/#of people impacted	The level of participation opportunities by Rotarians	The quality of the Project and Follow up plan	**OVERALL SCORE**
	25	25	25	25	(out of 100)
Sample applicant	18	22	10	16	66
