CLUB BUSINESS AND ANNOUNCEMENTS: President Shari Clifford

At the Board meeting it was decided to put together a bike repair place on the bike trail at Neal Ave and McKusick as suggested by Rick and also when the bridge is done make on where the loop begins or ends which will be reviewed with the Grants Committee.

We are going to meet at the Knights of Columbus for at least 2 more weeks but with the Picnic being one of those weeks, not that week for sure. Joe will keep us informed.

Craig Leiser, as District Rotary Foundation Chair, gave us a report on how we fared in the District in Giving: We were #1 in the District for Fast for Hope thanks to the good work of Andy, we were double the club next in the standings. In Polio Plus we were 3rd, it was interesting that one donor in a club's area in the district wanted to give $50,000 and they suggested Polio Plus. If we donate to Polio Plus, with matching donations form the District and Bill Gates Foundation etc.. $1 becomes $4.50.

Brett reported that this year we are the host club for a Japanese Exchange Student, so we are looking for host families.

SARGENT AT ARMS: Jennifer Giovinazzo and Mark Fisher

Today we played a trivia game, Mark would play a song and then through multiple choice we could vote for the correct answer. Those making an incorrect choice donated a dollar to the Foundation.

Dean Tibbets lost an older brother suffering a heart attack while fishing, something he loved to do. He was in his 70's.

Bob and his son Bob Rupp are all here with grandkids etc…

Someone was at Maddens Sunday night and what devastation.

Don't forget to signup for our picnic coming up, on July 28.

NEXT WEEKS PROGRAM

Arba-Della will host Ted Wegleitner, new Lakeview CEO, we again **at Knights of Columbus**

GETTING TO KNOW OUR MEMBERS:

Nancy Lyner is a graduate of St. Cloud State, she came to Stillwater in 1991 and was involved with Young Life. She is now the Hope Adoption Development Director. Shellacks all sports but especially hiking, swimming and skiing.

PROGRAM:

Nancy Lyner introduced Mike Isensee from the Middle St. Croix Watershed District. Nancy knows Mike from the help he gave the people who lived on Lily Lake.

Mike explained that the responsibility of watching over Lily Lake, McKusick Lake and Lake St. Croix. One of the big problems is the development in the area causes problems of waste washing into the system directly versus filtering through the Eco system. For example when there is a 1 to 2 inch rain…then water flows by different means..

	Natural	Stillwater
Evaporation	10%	30%
Shallow drainage	25%	20%
Deep drainage	25%	15%

Also when there is engineered runoff (like curb and gutters) there is a lot of gunk and phosphorus that cause algae in the lakes. Some answers: Keep gutters clean, install drainage gardens both private and public.

The other work they do is help in shoreline erosion by suggesting bushes and shrubbery along the shoreline.

Joke of the Week

Six year old Annie returns home from school and says that today she had her first family planning lesson at school.

Her mother, very interested, asks: "Oh... How did it go"

"I nearly died of shame!" she answers. "Sam from down the street says the stork brings babies. Sally, next door said you can buy babies at the orphanage. Pete, in my class says you can buy babies at the hospital."

Her mother answers laughingly, "But that's no reason to be ashamed."

"No... but I can't tell them that we were so poor that you and daddy had to make me yourselves!"
