Greg joined our club on July 1st 1990, has held many club roles over the years, our President in 1997/98, made a PHF in 2000.
Many thanks Greg and Marge Williams for your invaluable contribution and friendship over the last 25 years.

Fine Session **Sergeant PP John Wallhead**

Max B: Fined for turning up to the Inner Wheel Changeover 'with a tie on' but the top button undone.

Bob T: Looking for tea towels, none here. Rebecca pointed out a box full.

James S: Bob T sent an email looking for a roof fixer to do some maintenance on his house, James replied with the suggestion that perhaps Chris O may be interested!!!!

Sam C: Late.

John I: Very late.

Edd S: Moving the furniture, Edd found a couple of chairs that need some maintenance

Max B: You can pay up for being '9465 Rotarian of the Year'

Eric B: President Mike thanked everyone for 'putting up with him' this year.
Eric fined for commenting that it was only a 12 month reprieve as he is taking on the role again in 2016

Mike N: For being awarded a District Award.

Edd S: Now playing bowls, Friday night last the lucky number draw at the Bowling Club called out, $160 Who wasn't there to receive it??

Ian C: Told us a rather sad tale of how he got his arm caught in the train door after the football last Sunday, sounds as though it could have been a bit scary.

Polio this week 1st July 2015

- In June, the wild poliovirus outbreaks in Equatorial Guinea, Ethiopia and Kenya were assessed to be over by independent teams, having successfully interrupted transmission of the virus. While this is a sign that supplementary immunization activities and acute flaccid paralysis have been strengthened since all of the outbreaks began in 2013, it is essential for these gains to be maintained and built upon in order to protect children within these countries from the return of the virus

- Five cases of circulating vaccine derived poliovirus type 1 (cVDPV1) have been reported in Madagascar, with dates of onset of paralysis in April and May 2015. These cases are genetically linked to that from September 2014, indicating prolonged and widespread circulation of the virus. The emergency outbreak response is now being intensified to build immunity against the virus in the country, as 25 % of children across Madagascar remain un- or under- immunized.

Gender Types

FREEZER BAGS: They are male, because they hold everything in, but you can see right through them.

PHOTOCOPIERS: These are female, because once turned off, it takes a while to warm them up again.
They are an effective reproductive device if the right buttons are pushed, but can also wreak havoc if you push the wrong buttons.

TYRES: Tyres are male, because they go bald easily and are often over inflated.

HOT AIR BALLOONS: Also a male object, because to get them to go anywhere, you have to light a fire under their arse.

SPONGES: These are female, because they are soft, squeezable and retain water.

WEB PAGES:
Female, because they're constantly being looked at and frequently getting hit on.

TRAINS: Definitely male, because they always use the same old lines for picking up people.

EGG TIMERS: Egg timers are female because, over time, all the weight shifts to the bottom.

HAMMERS: Male, because in the last 5000 years, they've hardly changed at all, and are occasionally handy to have around.

THE REMOTE CONTROL: Female. Ha! You probably thought it would be male, but consider this: It easily gives a man pleasure, he'd be lost without it, and while he doesn't always know which buttons to push, he just keeps trying

Good health is merely the slowest possible rate at which one can die

My wife says I never listen to her. At least I think that's what she said

Ok I know it's been around for a while but I like this one

I've never understood why women love cats. Cats are independent, they don't listen, they don't come when you call, they like to stay out a lot, and when they're home they like to sleep and be left alone. In other words, qualities that women hate in a man, they love in a cat.

Hung Chow calls in to work and says, "Hey, boss I no come work today,
weally sick. I got headache, stomach ache and my legs hurt. I not come work."

The boss says, "You know Hung Chow, I really need you today. When I feel like this I go to my wife and tell her give me sex. Makes everything better and I can go to work. You try.

Two hours later Hung Chow calls again: "Boss, I do what you say and I feel great. I be at work soon. You got nice house."
