### LAST MEETING: 8/31/11

*By Kelli Robbins*

As the hot weather of 2011 waxes and wanes into autumn, Pittsburgh Rotarians gather for one last summer luncheon before the Labor Day holiday. What a fine summer it has been! Beginning with our wildly successful Centennial Gala in June, to our Rivers Club

Membership Drive event this week, action in our club has been non-stop. It has been a season to remember.

This particular meeting was presided over by the always effervescent immediate Past President **Linda Fischer**, as **Acting President Andy Dlinn** was unable to attend. **Jim Ludwig** delivered a warm and heartfelt invocation; while our pledge and song "God Bless America" were led by this humble reporter. Kate Smith would have been proud of our group! Your voices resonated with such warmth and enthusiasm for our country and for our club.

Our first order of business was President Linda's recap of our membership event, held at the Rivers Club last Monday, August 29th. Our featured speaker was **Kivi Bernhard**, an internationally famous motivational expert. Mr. Bernhard's presentation was entitled "Leopardology", a fascinating blend of critical business thinking and strategy gleaned from hunting habits and techniques of leopards, Africa's most successful predator. The room was packed with over 75 Rotarians and guests. President Linda honored all Rotarians who attended and brought one or more prospective club members to this special event. A special thanks to our wonderful **President Andy Dlinn**, for organizing this significant affair at affordable prices. Just a warm reminder: Please be sure to contact your guest and invite them to join us for lunch or consider membership with Pittsburgh Rotary. Follow up is crucial!

Our own **Mike Smith, CEO of Goodwill Industries** and Chairman of the Chuck Tanner Committee, reminded us that our program packets for our November 19th event at the David Lawrence Convention Center will be ready next meeting. Let's all commit to getting involved in our biggest and most exciting fundraising event of the year. Sponsors are needed; tables and tickets need purchased; and auction items need to be donated. Let's kick our planning phase into execution and make this Chuck Tanner event our best ever. We can do it... together!

President Linda also reminded us that our brother Rotarian, **Ralph Manning**, would appreciate cards and letters while he is recuperating. Won't you take a few moments this week to let him know how

much he is missed?

**Ralph Manning**  
Room 103B

HealthSouth Harmarville Rehab  
320 Guys Run Road  
Pittsburgh, PA 15238

Our musically gifted **Bill Sutherland, Past Service**, used his "Three Minutes of Fame" to showcase the art of the Barbershop Quartet, and treated Rotarians to a CD musical interlude from the top Barbershop act in the country. Bill is recruiting new members for his Pittsburgh-based group and invites Rotarians to join him!

Programming chair extraordinaire **Robin Zoufalik of RPA Engineering** introduced us to our speaker, Mr. Gary Quatchak, CEO of Civil & Environmental Consultants, Inc. Founded in 1989, CEC works in the primary practice areas of environmental services, civil & site development engineering, ecological sciences and solid waste management. In addition, CEC supports the Marcellus Shale gas industry, from initial site selection and permitting, through production and distribution from completed wells. Entitled "Great Things Are Happening in Western PA", Mr. Quatchak's presentation focused on the benefits and challenges of the natural gas drilling industry headquartered here in our region.

"**Unprecedented economic impact**" is the biggest advantage of the Marcellus Shale area drilling, according to Mr. Quatchak. This includes not only expected royalties and fees, but higher employment and lower energy costs to residents. Natural gas is also considered a cleaner and more efficient fuel source, and will likely spawn new industry throughout Western PA that includes everything from industrial by-products to increased production of Compressed Natural Gas (CBG) vehicles.

**With great responsibility also come great challenges.** The impact on small town infrastructure (roads, traffic, trucks and noise), coupled with expansive water use for hydraulic fracturing processes, make safety and our natural environment a central focus for firms like CEC. Our region is poised to emerge as "the energy center", according to Mr. Quatchak. With our good fortune comes great accountability.

The spirited discussion that followed the presentation echoed just how central this controversial issue is to all. As Marcellus Shale continues to dominate headlines Rotarians and the public at large will continue to ask questions, delve deeper and hopefully find compromise as Marcellus Shale drilling expands.

This Labor Day, may God bless all of my fellow Rotarians, and God Bless America!

### NEXT MEETING

Date: September 7, 2011  
Speaker: Cliff Milowicki  
Title: VP & Partner  
Organization: Alliance Physical Therapy  
and Performance Centers

# It's a Great Day for Rotary!
