ROTARY CLUB OF ASHBURN, VIRGINIA

Volume 1, Issue 28

October 14, 2010

Ashburn Welcomes INOVA Blood Donor Services Senior Account Manager Robyn Kaplan

With 25 years of sales and marketing experience in the technology field, Robyn finds her current mission most challenging; the two-fold job of blood collection and public education regarding the constant need for a safe and adequate local blood supply. The work is a perfect combination of interacting with as many people as possible and providing an essential community service that can benefit almost anyone at anytime.

Previous to her career in technology, Robyn was a community service professional as Director of a student foundation at NYU and Assistant Director of the New York City office of the Anti-Defamation League.

INOVA Blood Donor Services is part of the award-winning not-for-profit INOVA Health System that consists of hospitals and other health services including emergency and urgent care centers, home care, nursing homes and mental health and wellness centers. Governed by a voluntary board of community members, INOVA's mission is to improve the health of the diverse community through excellence in patient care, education and research.

INOVA Blood Donor Services supplies lifesaving blood and blood products to [15 different hospitals](#) in Northern Virginia and the Washington, D.C., metro area. We also work with national and international redistribution organizations to get blood where it's needed most.

The specific mission of INOVA Blood Donor Services is to provide a safe and adequate blood supply for patients in the diverse community. For more than 35 years, INOVA has partnered with volunteer blood donors and community organization to do just that. But today the demand for blood is increasing while blood donation levels are decreasing. We need you more than ever!

you give someone another laugh,
