### World Water Day 2014: Water and Energy March 22, 2014

Water and energy are closely interlinked and interdependent. Energy generation and transmission requires utilization of water resources, particularly for hydroelectric, nuclear, and thermal energy sources. Conversely, about 8% of the global energy generation is used for pumping, treating and transporting water to various consumers.

In 2014, the UN System – working closely with its Member States and other relevant stakeholders – is collectively bringing its attention to the water-energy nexus, particularly addressing inequities, especially for the 'bottom billion' who live in slums and impoverished rural areas and survive without access to safe drinking water, adequate sanitation, sufficient food and energy services. It also aims to facilitate the development of policies and crosscutting frameworks that bridge ministries and sectors, leading the way to energy security and sustainable water use in a green economy. Particular attention will be paid to identifying best practices that can make a water- and energy-efficient 'Green Industry' a reality.

#### Agenda:

1. Pledge of Allegiance
2. Invocation
3. Lunch
4. Introduction of Guests
5. Club Announcements
6. Guest Speaker Presentation
7. Upcoming Events
8. 50:50 Drawing/Happy Talk
9. Four-Way Test
10. Adjourn 1:15 PM

#### The Four-Way Test

“Of the things we think say or do:

- 1) Is it the TRUTH?
- 2) Is it FAIR to all concerned?
- 3) Will it build GOODWILL and BETTER FRIENDSHIPS?
- 4) Will it be BENEFICIAL to all concerned?”

## Objectives of World Water Day in 2014

- Raise awareness of the inter-linkages between water and energy.
- Contribute to a policy dialogue that focuses on the broad range of issues related to the nexus of water and energy
- Demonstrate, through case studies, to decision makers in the energy sector and the water domain that integrated approaches and solutions to water-energy issues can achieve greater economic and social impacts
- Identify policy formulation and capacity development issues in which the UN system, in particular UN-Water and UN-Energy, can offer significant contributions
- Identify key stakeholders in the water-energy nexus and actively engaging them in further developing the water-energy linkages
- Contribute as relevant to the post-2015 discussions in relation to the water-energy nexus.

## Celebrate the First Day Of Spring March 20!

### The Rotary Club of Ashburn, VA Board of Directors 2013-2014

Mary L. Maguire, President  
 Doug Corbett, Vice President  
 Nancy Pav, Secretary  
 John Casamiquela, Treasurer  
 Shawn Mitchell, Past President

Chris Little, Sergeant at Arms  
 Lisa Svendsen, Director  
 Virginia Moore, Director  
 Michael Schimmel, Director

Justina Dee, Director  
 Keith Reeve, Director  
 Scott Miller, Director  
 Jeff Perry, Director
