Still need volunteers to interview potential scholarship recipients. Contact Judy J.

Ducky Dash is on, we have Ducks. Thanks to Liam Martin and Amber we now have our 7,000 ducks! Six Thousand Graduation cap ducks and another 1,000 with the Rotary Logo on the front for promotional uses by our club

Speaker Donna Fouts of United Cerebral Palsy Gave a good description of Cerebral Palsy patients and what they go through their entire lives. It is a disease with no cure. She used a demonstration with three members, one was sports active, a communicator and a smart person. She acted as a Villain. Causes are outside trauma of the brain, pregnancy,

German measles umbilical cord tanglement. The effects are on muscle movement, speech or both. Nothing is wrong with the brain. If the brain is effected then it becomes mental retardation.

United Cerebral Palsy was established in Hawaii in 1959 as a non-profit. They take babies from birth to 3 years old working with them through physical therapy to keep their muscles working and growing as they should.

They also offer a program of public health, spending time educating people on Cerebral Palsy. One of the issues that most concerns her is children standing in shopping carts at the stores. One slip or fall can cause immediate brain damage and cerebral palsy. Her advice is Never Let a Child Stand in a Shopping Cart.

Another program they are involved in is Social Services.

25 Years ago Donna started a fundraiser to fund their special projects through the United Cerebral Paulsy foundation in the for of the Rubber Duckie Race in the Ala Wai Canal. It continues today.

Donna has offered to assist the Hawaii Kai Rotary Club in our endeavor to have our initial "Ducky Dash" to raise funds for our Scholarships.

On the 22nd meeting our speaker did not show however our members stepped up and shared. Alex Sutterfield gave a history of her background, DG Chet spoke about the Rotary Foundation, Pres. Nick promoted the Peace Conference and Janneth talked about the Duck Dash.

On the 29th we had a friendly, light and entertaining speaker, Dr. Daniel White who spoke of his boo, "So Help Me Gold".
