Directors **Henry deButts**, **Oran Spotts**, **Liam Martin**

some family members. We had a grand total of 70+ attendees, our largest attendance ever.

Nick opened the meeting, Oran Spotts gave the four way test followed by the thought of the day by Nick Abbott. A Rotary Club in Australia was thinking of us; as they are a small club of only 11 members and very active in their community just like us. Our meeting then began with District Governor Chet DalSanto addressing the Interact Club. He asked the interested members several questions which they will need to know later to become Rotaract member when the enter College. The first question was, what type of club did Rotary start out as? It was a business mans gathering in Chicago sharing in business ideas; that all different businesses could use as well as referring prospective clients with the other members.

They developed the 4 way test of the Things we Think, Say or Do. DG Chet also informed everyone that Rotary gives more scholarships thru ough the United States than any other organization. He referred to other scholarships available such as High School members can spend a year in another country as an exchange student, completely paid for by Rotary. They can also spend a year at a foreign University anywhere around the world.

The students were asked what the Free Enterprise System is, relating that if their parents have their own businesses that are participating in the Free Enterprise System. As they could relate there is a lot to learn about Rotary.

Fundraising is one of the major projects we have to participate in annually to support our scholarships and operating costs. We will be looking at the KHS Interact Club to assist in the heavy lifting of our fund raising.

In January we will be collecting 20 pound rice bags for "Rotary Rice Rally" one for every Rotarian in the State of Hawaii, 1700 total bags. These bags of rice will be donated to the Foodbank Of Hawaii. Details at the Rotary d5000 website. <http://rotaryd5000.org/>

CHET DAL SANTO

D5000 Governor

September 18, 2010

Volume 4 Issue 7
