Our speaker was Clint Schroeder the Vocational Chair for D5000. He is also President of the Metro Honolulu Club. Clint informed us that with the emphasis on new membership for all clubs, the Metro Club has brought in 19 new members since August. The theme for the Vocations is "If not you the Who?" A discussion was focused around

why members became Rotarians. Most members answered that they became Rotarians to network with business leaders that have come before. They stayed in Rotary because it allowed them to be part of the solution, by giving back both to the community and the world. It was time to give back.

Another Rotarian answered that being a part of Rotary has brought balance to their life, knowing we can be involved in something so much bigger than ourselves. Family is very important, but more importantly it's the example left behind for our children.

Can you imagine a world where people didn't give their time, treasure and talent?

Rotary clubs exist to improve communities locally and around the world. Rotary encourages high ethical standards in business and professions. Rotary clubs work to advance international understanding by partnering with clubs in other countries.

Every week, meeting with fellow Rotarians gives us motivation to inspire and create positive change in our community. We feel honored to be part of an organization that has such a significant global impact in bettering the world we live in.

It 's time to make a difference.

Rotarians change the world. Rotarians are a part of their communities. Rotarians are right next door. Join us and be a part of the solution today! That is the message Clint is trying to get out into the community to create a growth in membership.
