NOTE: NORMAL MEETING 6.00pm for 6.30 pm start PARTNERS NIGHT MEETING 6.30 for 7.00pm start	

From the President's Desk

It has become apparent that the community of Medowie really wants the Christmas Carols as I have been very happy with the response to my drive to raise additional funds, at this stage I am delighted to report promises of approx \$4000 and this is not including our main sponsors, NPBS, Medowie Christian School, and Council.

last Sunday the 18th September we had the horses at Alexandria Park, it is always a wonderful day of fellowship, fun , hard work and money raising, despite the rain.

Don't forget the 28th September, Partners Night, Rotary Health Hat Night, cant wait to see some of the creations.

Next Sunday promises to be very busy day with Lego, lots of help needed, no doubt we will be briefed by Steve.

Yours in Rotary

Geoffrey

Message from Lyn - re Heart Foundation collection

I really appreciated the generous donations made last week to the Heart Foundation collection.

As so many of us have been touched with various forms of heart disease and heart operations I believe this to be a worthy cause and one Ian and I have participated in each year.

Through the generosity of the members of the Rotary Club of Williamtown you donated a total of \$177 last Wednesday night.

With many thanks

Lyn

Libby from HMRI presenting certificate of appreciation to Past President Peter for donation from our club

Ian giving the appreciation to Libby as guest speaker

Things Every Rotarian Should Know About Rotary^(to be continued)

12 - WORLD UNDERSTANDING MONTH

The month of February is very special in the Rotary calendar since it is designated World Understanding Month. The month also includes the anniversary of the first meeting of Rotary held on February 23, 1905, now designated World Understanding and Peace Day.

In designating World Understanding Month, the Rotary International board asks all Rotary clubs to plan programs for their weekly meeting and undertake special activities to emphasize "understanding and goodwill as essential for world peace."

To observe this designated month, many clubs arrange international speakers, invite youth exchange students and international scholars from schools and universities to club meetings, plan programs featuring former Group Study Exchange team members, arrange discussions on international issues, present entertainment with an international cultural or artistic theme and schedule other programs with an international emphasis.

Many clubs take the opportunity to launch an international community service activity or make contact with a Rotary club in another country is a good month to initiate a Rotary Fellowship Exchange, a 3-H project or encourage support for PolioPlus and other Rotary Foundation programs. World Understanding Month is a chance for every club to pause, plan and promote the Fourth Avenue of Service-Rotary's continued quest for goodwill, peace and understanding among people of the world.

13 - THE CLASSIFICATION PRINCIPLE

Virtually all membership in Rotary was based upon a "classification." Basically a classification describes the distinct and recognized business or professional service which the Rotarian renders to society.

The principle of Rotary classification is somewhat more specific and precise. In determining the classification of a Rotarian it is necessary to look at the "principal or recognized business or professional activity of the firm, company or institution" with which an active member is connected or "that which covers his principal and recognized business or professional activity." It should be clearly understood that classifications are determined by activities or services to society rather than by the position held by a particular individual. In other words, if a person is the president of a bank, he or she is not classified as "bank president" but under the classification "banking."

It is the principal and recognized activity of a business or professional establishment or the individual's principal and recognized business or professional activity that determines the classification to be established and loaned to a qualified person. For example, the permanently employed electrical engineer, insurance adjuster, or business manager of a railroad company, mining company, manufacturing concern, hospital, clinic, etc., may be considered for membership as a representative of the particular work he or she may be doing personally or as a representative of the firm, company, or institution for which the professional service is being done.

The classification principle also permits business and industries to be separated into distinct functions such as manufacturing, distributing, retailing and servicing. Classifications may also be specified as distinct and independent divisions of a large corporation or university within the club's territory, such as a school of business or a school of engineering.

Though the classification principle is not as dominant as it once was it is still important that we make an effort to assure that each Rotary club represents a cross section of the business and professional service of the community.
