

Please read to see what an impact the Life Leadership Conference had on Haley Knight, below, last summer, one of seven young leaders sponsored by Muskegon Rotary Club. Haley will be participating in the Honduras Water Filter Mission in April.

*"The people and instructors at the Life Leadership Conference taught me that as a leader I should find someone that I can lift up and give hope to," she said. "That stuck with me this year. The conference also taught me that passionate people get things done and give people energy, which is completely true, because sometimes someone just needs the touch of a special hand to inspire them. If you find a way to bring hope, then you'll be a leader."*

*"The people I have met through Rotary, and the Rotary organization itself have shown me to be the change I want to see in the world. This didn't mean anything to me at the beginning of the conference, but now it shapes me and my future. I can see myself being a leader and I wouldn't be at this point without having gone to the conference. Overall, I left there a different person because I learned to be confident in myself and others and that made the whole experience worthwhile."*

Haley Knight

Oakridge High School Senior

Muskegon Area Career Tech Center

Interact Club member,

sponsored by Muskegon Rotary Club

Life Leadership Conference Conferee,

June 2012
