"Creativity is thinking up new things. Innovation is doing new things."

Theodore Levitt *economist and professor*

The creative element of the Future Vision plan has been developed by the Trustees, Future Vision Committee and the many Rotarians that have contributed to the development of the plan. The Innovation is in the hands of the 100 pilot districts. Their challenge is not to do what they have always done in the same way but to find new innovative ways to deliver education and humanitarian service to local and international communities. RRFs, DRFC Chairs and DGEs from the pilot districts will be trained on future vision in San Diego this month.

In advance of PETS, remind the current club presidents and secretaries in your districts to log onto the Member Access Portal (MAP) and assign these two officers under Update Club Data section on the MAP.
