

# Welcome to Facebook!

## Part 1: An Introduction

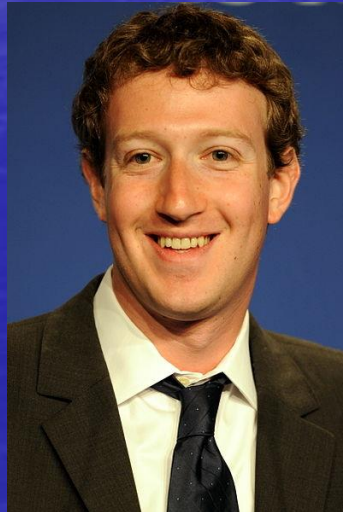

# What is Facebook?

- Facebook is a social networking site founded in 2004 by Mark Zuckerberg, a Harvard student, and roommates
- It was originally designed as a Dorm Student Directory.
- Zuckerberg started spreading it to other schools before spreading it worldwide in 2005

# What is Facebook? Cont.

- After 2006, anyone claiming to be 13 with an email address could join.
- In 2012, the network hit a billion accounts

# Sheryl Sandberg, COO

# Why Use Facebook?

- Facebook is specifically designed to keep in touch with friends and family, **to connect and share with them.**
- Being so popular currently, it can be a disadvantage not to have an account.
- Many other sites have ways to share Facebook content.

# Connecting/ Sharing?

- Two Ways:
  - Personal messages
  - Status updates
- Need to watch what share
- Allows to reach more people at once than traditional media mediums

# Key Terms

- Status
- Update
- Timeline
- News feed
- Comment
- Tag
- Like
- Friend
- Notification

# Getting Facebook

PUBLIC SERVICE ANNOUNCEMENT: There is a group of small children running around Hungry Hollow in the most impressive Sasquatch costumes I have ever seen.

You have been warned.

## Facebook Privacy Settings

Do you know who you're sharing with on Facebook?

Learn more about the different sharing options below.

### Public

This is the least secure privacy setting. It shares information with everyone on Facebook.

### Friends

This is the most common option, sharing with everyone you've added as a friend.

### Lists

You can share with **lists** of friends to help keep sensitive information from some people.

### Only me

Anything shared with this option will only be visible to you.
