

Change a Life—TODAY!

These grant funded activities include:

- ♦ Rotary Community Corps and Water Use Committees for each village will be trained in maintenance and repair of all mechanical components.
- ♦ Each household will contribute to a Water Use Committee Fund for repairs.

If your club is looking for an opportunity to transform life and livelihood in a country much less privileged than ours, through water and sanitation development, look no further. Please join us in helping the host communities of Alooi and Barlonyo build the necessary tools to be self-sustaining: water and sanitation for a start!

The Rotary Club of Oakville Trafalgar is the primary International Sponsor for a Rotary International Global Grant (GG1417461) Water, Sanitation and Hygiene project in Barlonyo and Alooi, northern Uganda. Supporting Clubs are Rotary Club of Oakville, Rotary Club of Oakville West and Rotary Club of Annapolis, Maryland, among many others. The primary Host Sponsors are the Rotary Club of Kampala and the Rotary Club of Lira, Uganda. The project is supported by the Water and Sanitation Rotary Action Group (WASRAG) and endorsed, with advisory support, by the Uganda Rotary Water Plus committee.

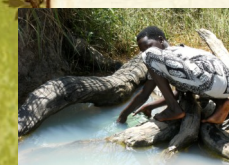

To learn how to contribute to this project, please contact:

WATER, SANITATION, AND HYGIENE PROJECT - NORTHERN UGANDA

From this...

To THIS...

Serving the villages of Alooi, Alebtong District and Barlonyo, Lira District

Sponsored by:
Rotary Club of Oakville Trafalgar, Primary International Sponsor
Rotary Club of Kampala, Co-Primary Host
Rotary Club of Lira, Co-Primary Host Partners...
Rotary Club of Annapolis, Maryland
RCs Oakville and Oakville West

Barlonyo Vocational and Nursery School Well

*Barlonyo Vocational and Nursery School Well—
built in 2010 and currently serving 400 community
members daily*

*Barlonyo Nurs-
ery School
Hand washing
Instruction*

Your Support Can Help Make the Needed Change a Reality

The Water, Sanitation and Hygiene Project—

Northern Uganda Project provides:

- ◆ Water supply systems which include solar powered bore hole wells providing fresh, clean water.
- ◆ Reservoir tanks for 10 stand pipes per village
- ◆ Rain water harvesting tanks
- ◆ Flush toilets
- ◆ Biogas production system
- ◆ A hygiene education campaign
- ◆ Income Generating activities
 - microfinance loans/tree planting.

With the raising of \$ 130,000 in club contributions, we will qualify for additional district and Rotary International Foundation matching grants for a total grant amount of \$449,500 USD.

Today: In Uganda, diarrhea, which is due to lack of clean water and basic hygiene, is the second biggest cause of child deaths contributing to an under-five mortality rate of 152 deaths per 1,000 live births.

TOMORROW: 6,600 citizens of Barlonyo and Aloi will have access to safe and healthy water, toilets and sanitation due to **your** efforts...
