

## ***Electronic School Library for Rural Cuban School in Horacio Rodriguez***

In 2014 the International Committee of the Rotary Club of Barrie Huronia donated \$500.00 for the Cuban School.

Table top fans for every class room were purchased to help cope with the spring / summer / fall heat and humidity and an electronic school library based on a used laptop were installed at the school in January 2015.

The electronic school library consists of

- Spanish Wikipedia
- Spanish medical encyclopaedia
- English school Wikipedia
- 265 Spanish and English eBooks from Kindergarten to Grade 3 for students and teachers
- Spelling, counting, etc. learning games in Spanish
- A music library from classical to modern music
- A world map

This school has no Internet connection and their only means for teaching are the government school books. With the new library they can research any subject and can move the laptop from classroom to classroom. Grades 3 to 6 will especially benefit from the new library.

The principal assigned a young teacher to take care and learn what it has to offer.

Cooking rice for the school lunch.

We thank Vern Solomon for donating the laptop. January 2015 by Herb Tropic
