### **A Message to our valued Rotary-At-Home TV Bingo Customers**

The Rotary Club of North Bay wishes to let our At-Home TV Bingo players and customers know we have suspended our weekly games on YourTV (Cogeco 12) until further notice.

In these times of concern over public health during the COVID-19 pandemic, we thought long and hard about this. Part of our concern was the suspension of one of the few recreational activities which would normally be ideal for folks who had to stay at home. Another part of our concern had to be for the overall health of our Rotary Club members and their families, even as we are doing well-known community work. Working with our partners from Your TV, we have even made a few operational changes to improve social distancing and personal hygiene through the course of a program evening.

In the meantime, we encourage all of you to stay healthy and safe – wash your hands frequently, practice social distancing, avoid any non-essential trips out of the home, cough into your elbow. Look out for your loved ones, your friends and neighbours, especially the elderly where you can.

We hope to rejoin you soon so that you can continue to enjoy playing Rotary At-Home TV Bingo on Your TV.
