

What Parents Say

Aiden has Down's Syndrome. Over the years (at Camp Tillicum), the commraderie of the campers and counsellors have helped Aiden overcome some shyness and join in on group activities. His social skills have improved exponentially...

- *Angela Devine*

I cannot say enough about the growth that my kids have achieved over their years at camp. My oldest especially has been given the chance to grow and achieve so many things because everyone has seen the potential that he has... (My youngest) was always up early and ready to go spend his day outdoors...

- *Jennifer Daguerre*

What Supporters Say

Camp Tillicum has been a big part of my family's life. My late husband (John Lewis) firmly believed that children... should have this special place to commune with nature. Hopefully Camp Tillicum will remain in Rotary's hands for a long time to come so that future generations can take the time to unplug and unwind in such a beautiful setting.

- *Nancy Lewis*

We are particularly interested in doing things that help young people. This is a continuation of our founder, Jim Redpath's legacy. When we heard about this opportunity, it excited us a great deal. We are extremely proud to be involved, it's a terrific project aimed at developing youth.

- *George Flumerfelt,*
President & CEO of Redpath
