COVID-19 Emergency Relief Fund Provides First Grants

North Bay – In late March, the North Bay and Area Community Foundation announced the launch of the COVID-19 Emergency Relief Fund which was established in partnership with the Rotary Club of North Bay. The Fund directly supports local organizations on the frontlines, specifically those in healthcare and food security.

It has now been announced that the fund will be providing its first round of grants. The North Bay Food Bank will be receiving \$5000 and the Gathering Place will be receiving \$2500, as both organizations work to deal with increased need.

As the fund continues to grow it will allocate grants where the need is most pressing in our community.

Our area is resilient and, we believe, it is imperative we come together to foster a strong and healthy community. The Community Foundation invites you to join us in helping to see our community through this crisis.
