

Jennifer Sicard, RPh, BScPhm, BSc. Bio.

I am currently the Pharmacist Manager of Medical Pharmacy, located in the walkway at 133 Main St. West in North Bay. I have been manager of this pharmacy for 7 years. I previously worked at the Rexall location in Sturgeon Falls for approximately 10 years (while I was a student and then after I became a pharmacist). I have been a pharmacist for over 15 years. I have extensive experience in addiction services, having run the methadone program at Rexall while I was there, and I took the job at Medical Pharmacy because of that experience.

Medical Pharmacy is a specialty pharmacy of sorts, being that we do not have a huge front shop like a Rexall or Shoppers Drug Mart, and we are focused primarily on pharmacy services. In addition to our general addiction population of patients, Medical Pharmacy also services the North Bay Recovery Home and our pharmacists attend the facility on a daily basis for Opioid Replacement Therapy dosing for those residents that need it. My pharmacy has a Long-Term Care division and we service Cassellhome, Waters Edge Care Community as well as the Sisters of the Assumption. We also have various mental health contracts and we service the ACTT teams, L'Arche group homes, Percy Place and Lakeshore Harm Reduction Home.

I sit on the board of Directors for the North Bay Crisis Centre and I was a participating pharmacist in the launch of the Patch for Patch program in collaboration with the North Bay Drug Strategy Committee and the North Bay Police.
