

## Rotary Club of Orillia Community Initiatives and Programs

If your group, club or team requires funding or support for a program or initiative that will assist those in need or may enrich the lives or quality of our community, please take a few minutes to review the following and complete our funding request form.

Our primary goal as Rotarians is to support vocational and community service in our local area, with a view to improving the quality of life for all, and to build goodwill through recognizing value of community.

We serve our community through assisting those in need; our support for programs to enable community participation and caring, and our sponsorship of community projects that will improve the quality of life and well being of our local residents.

Our programs recognize students who contribute to the development of community spirit in their schools; demonstrate academic and leadership qualities and act as role models for their peers. We also provide opportunities for youth to learn about occupations, citizenship and diverse cultures through sponsorship of both learning and exchange programs.

Our community giving program has provided support for local sports teams; assisted those in the community with special needs or crisis, and sponsored local groups who assist others or enrich the lives of many in our community.

Our sponsorship of local projects has encompassed a variety of initiatives, ranging from essential services, such as the Soldiers Memorial Hospital expansion, to financial support for such community events as the Winter Carnival.

We raise funds to support our programs and sponsorships through events such as Lobsterfest and Festival of Trees. The success of these events depends on participation by the community, and availability of volunteer club resources. As a result, we do not have a guaranteed revenue stream, and as such, can not provide funding for requirements viewed as ongoing operations.

Our Community Giving Committee reviews all requests for local sponsorship or assistance, and attempts to accommodate or partially accommodate all initiatives or requests that are in line with our goals and financial capability.

We take pride in supporting our local community; helping those who may need assistance and efforts to improve the quality of life for all.
