

**Rotary Club of Chilliwack**  
Rotary Service Building  
Sponsorship Prospectus

The Rotary Club of Chilliwack is a service club dedicated to improving lives of people, both in our community and around the world. Chartered in 1934, the 3663<sup>rd</sup> club in the world, The Rotary Club of Chilliwack is the largest club in the city with 145 members.

Rotary is a worldwide network of 1.2 million inspired individuals who translate their passion into relevant social causes to change lives in communities.

The Rotary Service Building is currently located at Townsend Park adjacent the turf grass football field. The Rotary Service Building was built in the early 90's and is used extensively to support the Annual Rotary Book Sale as a sorting, storage and drop off location for the donations that are then sold each October.

In the spring of 2017, the City of Chilliwack informed the Rotary Club of Chilliwack that we would need to vacate the current site. The City of Chilliwack has made a generous offer to fund a portion of a new building along with providing a suitable site just west of the current location.

The Rotary Club of Chilliwack is seeking funding to allow us to maximize the use of the Rotary Service Building by providing a meeting space for the club along with other related user groups. This is a "One Time Ask" for funding and your contribution will be acknowledged for the entire lifespan of Rotary Service Building.

*The Rotary Club of Chilliwack in Cooperation with the City of Chilliwack is able to offer a tax deductible receipt for the value of the donation received.*

Your contribution to enhancing the Rotary Service Building is vital to maximizing the use of the space. The Rotary Club of Chilliwack members are influential and important members of the community; they will see your contribution every time they do the work of Rotary within the building. Your contribution will be recognized for many years offering you the best possible return on your investment and sponsorship of the Rotary Service Building.
