Former U.S. Navy Corpsman (EMT) and private security supervisor transitioning into the financial field. Trusted in high-stakes environments requiring discretion, understanding, clear communication, and disciplined execution. Experienced leading teams, teaching practical financial literacy to service members, and managing large-scale readiness responsibilities of over 800 individuals. Active personal investor with hands-on experience in budgeting, long-term planning, and personal portfolio fundamentals. Working on relevant FINRA exams and studying for a dual major in Finance/Economics. I'm excited to work in a field surrounded by those with the same passions I have while accruing information, guidance and the work experience hours for an eventual CFP license.
