3. You will be asked for your name and email address. When this is confirmed, the system will e-mail you your access instructions. Please keep them safely stored.

After you have your Password:

You can click the "Member Area" space to issue yourself various reports, look up data, and even edit/correct your own data. If you wish, you can also post your own photo (replacing the present one) easily; and you can add text to your name providing fellow Members with a biography and other personal data.
