SURVIVE to THRIVE

Preliminary Proposal for Global Grant 2024

At the conclusion of the Traditional Birth Attendants Global Grant Project in 2022, we asked ...

What kind of life will the children we're saving have?

What opportunities will they have access to?

Are we saving these newborns to struggle in life?

It's obvious that saving their lives isn't enough to make a real impact.

We want them to thrive.

SURVIVE to THRIVE

Preliminary Proposal for Global Grant 2024

To thrive...

Children need timely stimulation and healthy nutrition to develop in their early years and prepare them for entering school when they are 7 years old. This is the basis for completing their studies and accessing better opportunities in life, thus breaking the cycle of poverty.

133 cm altura ideal de niños de 9 años según la OMS.

133cm.

Niños de 9 años con desnutrición provenientes de Quiché, Guatemala

133cm.

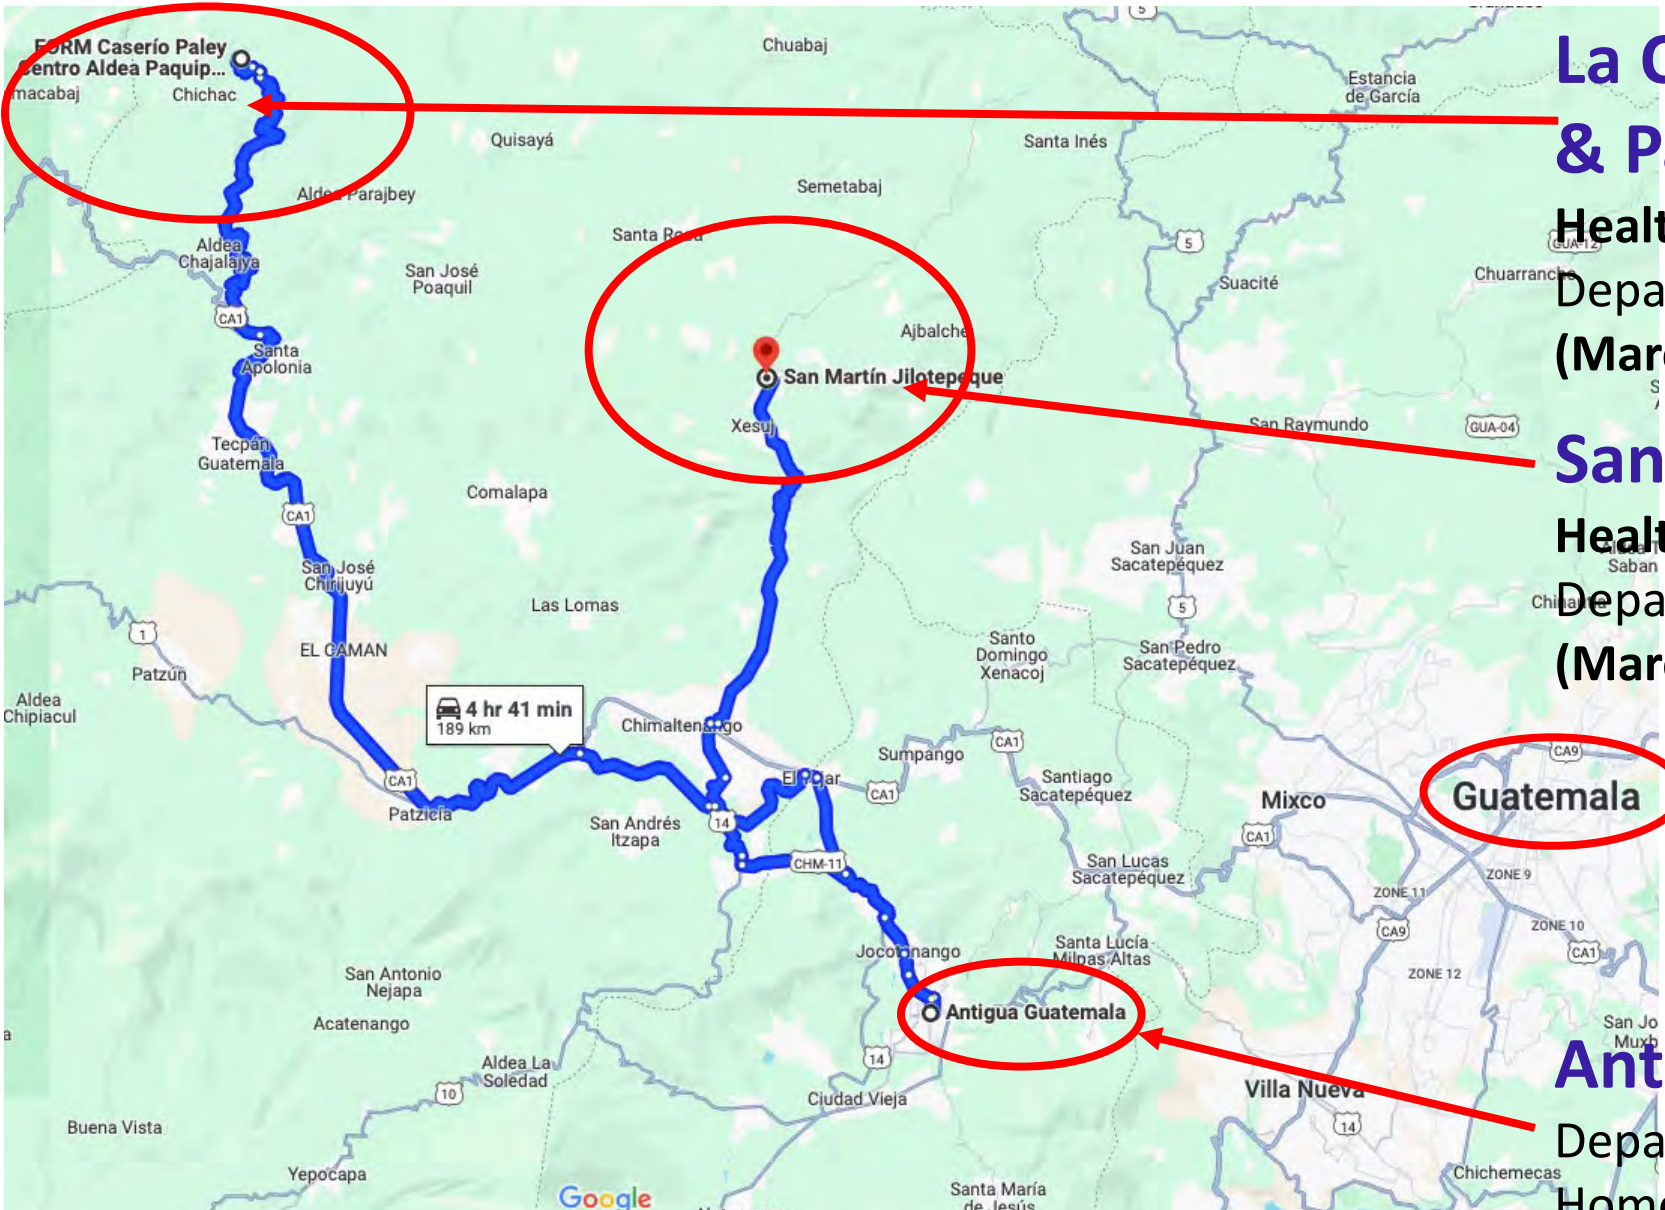

Niños de 9 años bien alimentados, también provenientes de Quiché, Guatemala pero crecieron en USA

SURVIVE to THRIVE

Preliminary Proposal for Global Grant 2024

It is proposed that the Nutrition & Early Child Development Program in Paley Centro will serve as the model for the establishment of similar programs in neighbouring communities in the Health District of Paquip.

Prior to submitting a Global Grant application, a comprehensive community assessment is required. This will take an investment of approximately \$15,000 USD to be shared in equal parts by the Rotary Club of Lincoln, Rotary Club of Guatemala Sur & International Needs Canada.
