Club to Dedicate Sitting Rock to Bob Morningstar!

The Board and the Clarice West Hobbs Garden Committee is pleased to announce that, through donations from current and past Club members, one of our Sitting Rocks at the Garden will be dedicated to honouring long-time member, and gardener, Bob Morningstar.

We have been in communication with the Morningstar family. Signage and a Rock location have been selected. The signage will be created and installed this Fall with a dedication to occur in late Spring/early Summer 2025. Stand by for details on that event at the Garden.

District 7090 End Polio Now Ride It's Not Too Late to Support Elaine and Bryan

District 7090 once again held the 5th Annual Dr. Ron Mergl Participate for Polio. Elaine and Bryan represented and cycled for Rotary Lakeshore in the event. It's not too late to support their ride as our club strives to end polio in the world. You can use the links below to make your donation.

Don't Forget: Your donation will be matched 2 to 1 by the Gates Foundation and a tax receipt will be issued. So for every dollar you give, \$3 ends up being donated to End Polio. When you use the links below, and you enter your email address (or are signed-up in rotary.org), every dollar you give will be credited to our Club's annual End Polio totals.

World & Community Spotlight

Club Supports Willowbank Indigenous Teaching Strawberry Planter

The Strawberry planter was built by Willowbank to help educate students on sustainable farming practices; foster respect and understanding of Indigenous culture; and to strengthen community ties and support for local food production within the historical context of Willowbank. Based on articles available on the Internet: *“Often referred to as the heart berry because of its shape, the wild or natural strawberry is an important food and medicine in many indigenous cultures in North America as well as teaching forgiveness and peace”.*

The Club donated \$500 to Willowbank for materials to construct its Indigenous Teaching Strawberry Planter. Our own Bryan Pett was part of the crew that built the planter.
