

AKOS Lavatory upgrades

Ever since I arrived at AKOS mid-2019 the girl's lavatory has no roof leaving them exposed to the elements and a complete lack of privacy. I have heard from the girls on multiple occasions that they don't like using the bathroom, they try to go as quickly as

possible and almost always go in small groups.

As a teenage girl, I can't imagine what it must be like to not only have to carry a bucket of water with me to use the bathroom but to also have to use it with the constant fear that anyone could just walk by and see you.

With the generous and gracious donation from the Charrlettetown Rotary club we have been able to install a new roof this March 2022. I received multiple hugs from the girls when I went out to the school on completion day, they were so happy.

Petty cash log

Project Name: Lavatory Roof

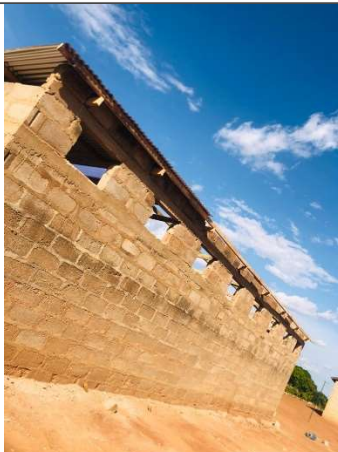

Balance 3,223 tsh

Description	Amount Deposited	Amount Withdrawn	Received By
Donation from Charlottetown Rotary club and Mary Hickey (\$1000+\$100CAD)	1,889,029 tsh		Rick Harvey
Transaction fee from Exim bank		13,806 tsh	Rick Harvey
Material costs for lavatory roof as per quotation		1,450,000 tsh	Rick Harvey
Material costs for translucent panels		52,000 tsh	Rick Harvey
Budget extension for missing material on quotation		280,000 tsh	Rick Harvey

SUBTOTAL \$0.00

THIS PROPOSAL INCLUDES THE CONDITIONS NOTED:

Quotation is for completion of a metal roof installed on top of the AKOS Lavatories, design set to be slope roof [3/12-4/12 pitch].
Intall a strip of translucent panels over stalls [5' metal/5' translucent/4' metal].
South wall to be builtup 4' with window openings matching the openings on the north wall. Inclusion to the gables to be closed off.

Site is to remain clean and organized at all times!

Crew must organize a schedule with the students to allow for bathroom access.

TAX RATE

SALES TAX \$0.00

OTHER

TOTAL \$0.00

Here we can see the pitch wall being raised to support roof, we added windows to match the backside to help with airflow and lighting.

Here they are just finishing off the gables

I was hoping for a steeper slope but we had some pretty heavy rains and all good.

I presumed that once the roof was on that it would be dark inside so I had them use some clear panel roofing as skylights over each toilet to brighten the environment and make it nicer for the girls.

I will be looking at having a plumber come to the site so I can get pricing on finishing the pipes and setting up shower stalls so the girls can use the bathroom as well as having an electrician let us know how much to install lights for night time use.

I have uploaded the remaining photos to youtube for your viewing pleasure.

<https://youtu.be/580hP7Nb75E>

As we have gone over our budget for this project slightly, I had a discussion with John Myola and he has agreed to look after getting some doors installed on the outside for the girls.

Here are the manual receipts used with the contractor.

Na. Ramadhan Ragabu **STAKABADHI** 0759881287
 Nimepokea kutoka kwa **Charlotte town Rotary Club** Tarehe **Mar 8, 22**
 Kiasi cha shilingi **1,450,000 tsh**
