THIS WEEK IN ROTARY...

GREG MELANSON – MELANSON PHOTOGRAPHY

Littleton native Greg Melanson took the club along on a whirlwind description of his travels and activities in pursuit of a variety of livelihoods. He is a self-described entrepreneur and marketer who found early success in the most basic form of direct marketing - going house to house knocking on doors to grow a business called Power Home Remodeling. Along the way he learned to live in his car, found showers in fitness centers and later discovered he could take photographs. Being in the right place at the right time, he captured marketable pictures of racial tensions in Baltimore and began working with news outlets. Melanson Photography is now a regional business based in the North Country that specializes in media and marketing applications that include fashion, modeling, weddings, and current events. Greg's future plans include connecting with his home town community through youth athletics.
