THIS WEEK IN ROTARY...

Two representatives of the North Country Health Consortium spoke to the club regarding two aspects

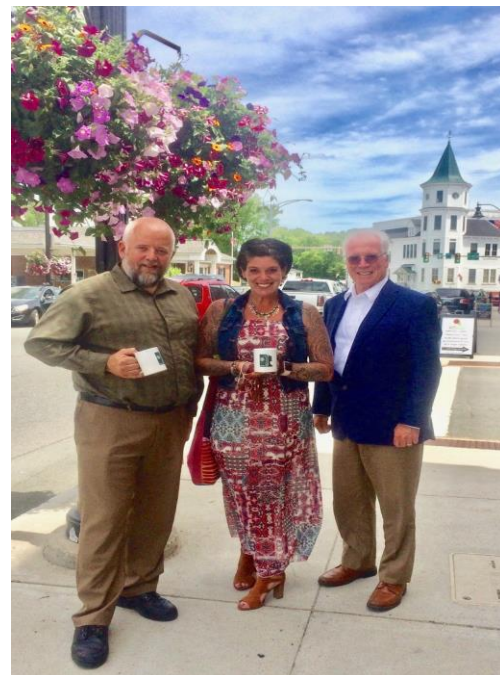

of NCHC's efforts to deal with the growing problem of substance abuse in the region. Substance Abuse Prevention Coordinator Greg Williams spoke about his work with individuals and their employers to deal with the substance abuse problems of employees while continuing their employment. NCHC's Continuing Care Coordinator Kristy Letendre

described the services provided at the Consortium's Friendship House in Bethlehem to local residents dealing with substance abuse. She noted that the new Friendship House facility under construction will make possible increases in both the number of persons residing there and the types of services that will be available to help deal with their substance abuse problems.

A Special Guest

At the meeting, Chrissy Smith proudly introduced her daughter Siobhan who earlier in the day had received her first driver's license! Members present - upon also learning that Siobhan was collecting donations for her Lisbon High girls soccer jog-a-thon team - handed her nearly \$100 in cash contributions for her cause.

Greg Williams, Kristy Letendre & Mike Claflin
