The first Muslim Mayor of our city educated us on Ramadan. Today is the 24th day of Ramadan. On the 23rd day, the Prophet received his first revelation from the Archangel Gabriel. Muslims stay up all night in the Prayer hall.

His lack of sleep was not evident in his speech.

He ponders about the state of the world. We are in a state of wet clay.
Living in a moment of extreme creativity.

There are five shattering crises

1. Public Health crises
2. Mental Health Crises
3. Economic inequality
4. Environmental crises
5. Institutional racism.

We need to have reconciliation with empathy; understanding of the community and Service above self.
