

# **Feed NK Children**

Jeong S. Sim

The Burnaby Metro Town Rotary Club

January 20, 2010

## Health is my priority

In the mid of November, nature blest Yanji with white snow, seemingly covering all the scars, flaws, resentments. Enjoyed standing on a serene snowy pass.

8-24-09 arrived Yanji, a school of cosmos flowers  
In the campus of YUST welcomed us. Felt at home.  
The nature became beautifully colored in the fall ,  
Around in the months of 9-10.  
Sustaining my physical wellbeing is one of my top  
Priorities. I enjoyed hiking whenever weather  
permits. Thank God for keeping me healthy and  
able to do What HE asked me to do.

# YUST Teaching Mission in China

## Faculty Spouse Mission

In China, disabled and TB infected students  
Are not admitted to higher education system.

YUST is the only institution that accepts  
Any physically challenged students.

Faculty spouses look after those students  
Physically, spiritually, financially and medically.

They raise fund, supply medicine and nurture  
Them with motherly love.

**Building dedication  
and  
Opening Ceremony**

**PUST Campus**

# 6

We find ourselves arriving in NK, the most infamous communist country in the world. We had a strange feeling that this is a miracle. Sure it is God's plan. We should not miss this opportunity to win hungry souls in this unusual part of the world. This is a mission work by means of Education. PTL.

Joo and Jeong were invited to participate In the opening ceremony of PUST held in PyungYang September 16-17, 2009.

# NK the other side of the Tumen River

**We can save them if we act  
early enough**

# Growth Status of NK Children of 7 years of age

## 1. Average Height

NK 105 cm

SK 125 cm

## 2. Difference

Height = **20 cm**

Weight = 19 kg

# A Success Case

## YUST Rajin Children's Home in NK

# Surviving Heros

Hungry children are waiting for meal time.

Three decent warm meals const a Canadian dime.

Gulpo Home: This is the first children's home build by donations from Rotary Friends in Edmonton. About 80 children are currently housed and being fed.

# 9

Wooamri-home, the second children's home is Completed and in operation since September 2009. This building has been financed jointly by Rebman Christian Foundation, Alberta wild Rose Foundation and Edmonton Rotary Clubs.

Ground breaking was done 2008/04/22

YUST Team for  
Feed NK Children

**Panko donated  
4500 pairs of  
underwear**

**Food Production Infrastructure**  
**Every inch of the land is being**  
**used for food production, but----**

**Food Shortage is there**  
**NK Food Production / Health Index**  
(WFP)

**6.4 million ton –adequate**

**(UN recommended Requirement)**

**4.3 million ton- no starvation but resulting  
400,000 people under nutrition**

**3.8 million ton – 100,000 deaths by starvation**

**3.3 million tons – 500,000 death by starvation**

**2.8 million ton- > one million deaths by  
starvation**

**2006 production- 2.8 million tons**

# **98 NK Nutrition Survey**

**UNICEF and WFP**

## **Overall Nutritional Status**

62.3 % NK children show malnutrition symptom

60.6 % NK children show Undergrowth

## **Nutrient Intake**

Protein Intake (child/day)- 24 g (52%)

Fats Intake (child/day)- 5.9/g,

Energy Intake (child/day)- 1,071 kcal (< 65%)

# Chong-Jin Energy supplement Project

Breakfast: 100 g Boiled yellow corn (337 kcal)

Evening Meal: 100 g Boiled yellow corn (337 kcal)

Lunch Snack: 150ml Soy milk (71.25 kcal)

Sugar added: 12g/4.0kcal (48kcal)

Total food Energy Consumed 793.25 kcal

They consume less than 40% of required food  
energy

Still needs Energy Supplement > 500 kcal

# Soy Milk Production Facilities

Brand new processing equipments for soy milk Production unused because of food shortage (purchased 2006 from china).

# Bakery Equipments

Equipped with modern Flour Mixer, Dough maker, and Infrared drier, purchased in 2006

# Feed NK Children Mission (Energy Supplement Project)

A typical daily ration contains about 200 g grains (usually corn) and a glass of soymilk per child. This meal supplies less than 50% of required calorie intake for a growing Child. These ration must be supplemented with at least 500 kcal, otherwise these Children never be recovered from malnutrition and grow. A 100g bakery serving made of 81g wheat flour, 8.0 g sugar, and 10 g soy oil or fats and fortified vitamins/minerals Has been developed. Raw materials will be purchased from China and delivered.

# Thought for the Hungry Children in NK

Behind the world media,

1. the people of North Korea suffer from famine in silence,
2. food shortages approach one million metric tons every year,
3. millions suffer from starvation and chronic malnutrition,
4. mortality of young children under 6 years of age is 39% - unprecedented,
5. an entire generation will be lost unless immediate action is taken
  - I am committed to raise fund to save some of those dying children.
  - **All it takes is a mere 15 cents per child per day.**
  - **These money is** not only to keep them alive, but also many of them if not all will recover from near-death malnutrition to a normal human being. Giving is love in action. Let us have mercy on these children. All it takes is a mere 10 cents per child per day. Your love action is just in a phone call away (604-805-3041) or an email ([jssim@ualberta.ca](mailto:jssim@ualberta.ca)).

# 10

# God is constantly reminding us!

## Deut 10:

**18** He defends the cause of the **fatherless** and the **widow**, and loves the alien, giving him **food** and **clothing**.

**19.** And you are to love those who are aliens, for you yourselves were aliens in **Egypt**.

Reconciliation

This is a show and tell facility to train NK farmers when they become legally allowed to come. Hope it comes soon.

# **Current Project needed to be supported**

- 1. Children is most vulnerable in NK, resulting in high mortality rate due to starvation,**
- 2. The mortality rate of Children under 6 years of age is 39.7%.**
- 3. I have been trying to reduce it as low as possible, by sending foods from China since 2006.**
- 4. We produce an infant food formular in China and deliver to NK.**
- 5. This food costs less than 10 Canadian cents per child per day, which is capable of saving some.**
- 6. We deliver one ton every month to Chongjin city in NK.**
- 7. One ton of this product costs only about C\$1,500.**
- 8. I have been soliciting any individual or organization to donate one or two tons.**
- 9. Here is how you can help, follow the instruction in the next slide**
- 10. Your contribution in any amount will make a huge difference, the fate of these children, life or death. God bless you.**

## **# 17 Fund Donation can be done by**

- 1. Writing a Check Payable to NEA Foundation-Canada ( Dr. Sim's “Feed NK children”)**
- 2. Sending to: NEAF, 67 Scarsdale Rd,  
North York, Ontario M3B 2R2.**

**This Foundation issues official receipt immediately for income tax deduction.**

**Inquiry can be directed to Mr. Ki-Hoon Kim, the  
foundation administrator**
