

2010 Sim's China/NK Mission Report

(YUST Teaching, Feed NK Children, Rebman Green Food Centre)

Dr. Jeong S. Sim (심정석)
Professor of Biological-Chemical Engineering
Yanbian University of Science and Technology
Yanji, Jilin, China

YUST Teaching Mission in China

Jeong, a Rotarian has been teaching Food Nutrition At Yanbian University of Science and Technology (YUST) In China since his retirement from University of Alberta in 2006. YUST is located in Yanji city near to NK border.

2010 1st Year Students for Bio-Eng

Nutrition class

YUST has two semester system:
Fall semester (Sept 1 to
December 30) and Spring
semester (March 1 to June 30)

The YUST campus in the Fall season Is fully flowered with cosmos which is my favorite, And in the winter however, bare trees are Flowered with crispy snow. The weather Pattern is much like as seen in Edmonton Alberta. Joo and I visit home twice a year Residing less than 4 month time in Canada. We almost feel like a Chinese.

In 2010, 8 students were assigned to us, 2 seniors, 3 juniors, 1 sophomores, and 2 freshmen. They are like adopted children to us, We are responsible for their overall wellbeing, academically, emotionally, socially and even spiritually throughout the entire period of their university life. Joo invite them to a dinner table as often as possible. Dinning and witnessing go well hand in hand. Love rides on foods. Four out of eight have accepted Jesus, the precious name of our savior. Remember them in your daily prayers.

These two are Graduates this year. They have been Supported last 4 Years with Sim's Scholarship. They are preparing Advanced studies Abroad.

Beside teaching, I am also running YP Rebman Green Food Production Centre (organic farming, Producing Functional foods). Eight staffs including me have been working so hard. It will bear fruits.

YUST campus is located near to NK border, 40 minutes away by a car, where you can hear of their cry, see of their hard pressed lives and almost feel like of their pains, hungry children in particular.

Feed N.K Children Project

These NK children deserve to be fed to grow. Their country is not able to provide food to them. Somebody else has to!
Would you join me?

Abundant Food Supply anywhere you go in China

Chinese market seems overly blessed
With plenty of foods but down south cross the boarder
Foods are rare commodity— deprived and dried----

Let us to Send Foods to dying NK babies under 5 years of age

Starving from food shortage is beyond our comprehension in North Korea . Hundreds and thousands people are literally dying every day. Children under 5 years of age are most vulnerable with 39.7% mortality rate. My mission is to reach out these kids by supplying a specially formulated infant food package as fast as possible. I have developed an infant formula and packaged in the China side and sent to orphanages in Chongjin city, North Korea. We prepare 5 metric tonnes and deliver to the target area every week. It just costs only 15 Canadian cents per child per day. This food is nutritious enough not only to keep them alive but helps them recover from a severe malnutrition. This project is worth being continued and expanded because of its effectiveness and of its high demand. The transaction between two boarder and delivery to target community have been verifiable. In my view, these kids are the most prosecuted souls in the planet.

So We have Developed an infant formula that saves lives in NK

To supply essential nutrients to starving and already malnourished children under 5 years of age. They are most vulnerable group in a food-deprived society like NK

To deliver tailor-made nutrient mix to Chongjin children's home that houses 2,945 children. This institute are staffed with medical doctors who are interested in the study of infant nutrition and recovery from malnutrition. They are very cooperative with us. Follow-up is feasible.

To make sure that the infant formula mix may not be easily misused or sold in the black market, other than feeding the targeted-age group of children in NK

To achieve a cost-effective operation using every possible locally available resources in China-NK

To obey the word "Give ye them to eat"

Animal protein supplemented formula

A 영양 맛죽

High energy formula

B 영양 어린이 미숫가루

Infant formula for NK children

Infant formula, Nutrient mix
Manufactured and packaged
In China and deliver to NK.

A package of 2.5kg
Can feed 16 children.

Costs only **0.57** per child

Infant Foods (米飲) are manufactured and packaged by a local food processor on a tonnage basis

Goods are ready to be shipped away

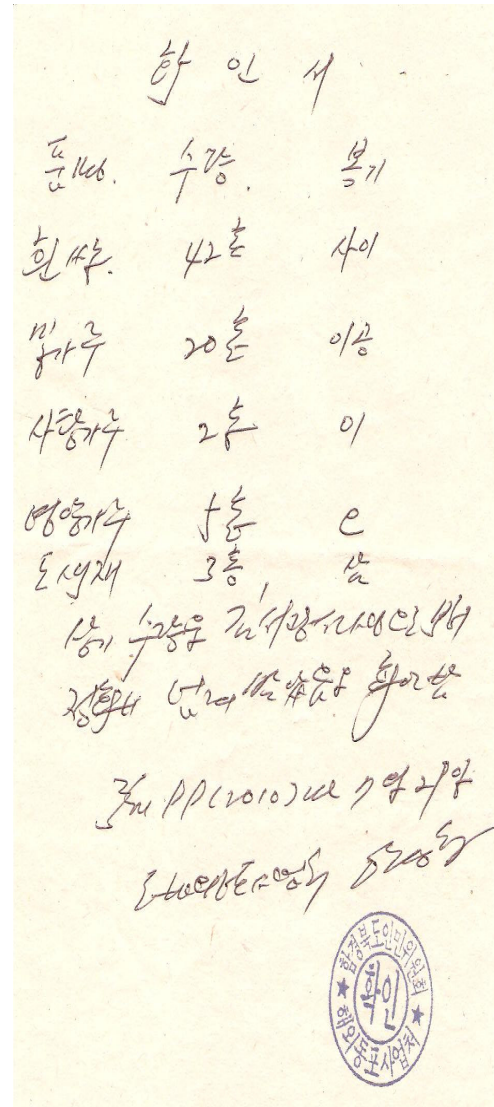

A truck is loaded in China to deliver them (infant food) to Chong-Jin city children's Home in North Korea

I have managed to raise 44,000 Canadian dollar for this project in 2010

<u>• Manufacture date</u>		<u>Fund issued (¥)</u>
• June 26	이유식(infant food)	¥ 90,000.00
• June 23	이유식	¥ 60,000.00
• June 24	이유식	¥ 30,263.00
• June 30	이유식	¥ 69,366.07
• <u>July 17</u>	<u>이유식</u>	<u>¥ 42,023.93</u>
• Total		¥ 291,653.00 (C\$ 44,000)

Note, This fund was raised in Canada and duly managed by NEAFoundation in Toronto and Seoul Offices, and professionally executed by the YUST-NK Relief Team. ¥ means Chinese RMB.

Infant Foods were delivered to NK children's home regularly and Verifiable Receipts were duly collected

Woo-am Children's Home in Rajin-Sunbong District North Korea

In 2008, I had an opportunity To tour around a small farming village called Wooam li in Sunbong-rajin district In North Korea.

I was asked to help them to construct A school building. Yes indeed I did Financing to construct this beautiful Facility completing in 2009. Now this school accommodates about 80 children. This project Was possible with an aid from Edmonton Rotary and Rebman Foundation in Alberta Canada.

Gulpo Children's Home

In 2006, I visited the Rajin city in North Korea first time. An old school building at a small Farming village called Gulpo was just about to Be condemned because its age.

The authority pleaded for help, Joo and I were pleased to finance them to construct this beautiful building in place Of the old one. Within a short period, less than 6 month, it was done so fast. Now it houses 60-80 children. Since then we have been trying to supply Foods and other living essentials to these Children's homes (Wooarli and Gulpo).

In December month alone for example, the following items were delivered to them

<u>Items</u>	<u>Quantity</u>	<u>Cost</u>
• Coal	5 tons	¥ 2,000.00
• Cooking oil	8 boxes	¥ 1,600.00
• Cookies	5 kg	¥ 50.00
• Candies	5 kg	¥ 50.00
• Floor covering	3 rolls	¥ 2,100.00
• Food utensils	100 pairs	¥ 2,000.00
• Rice	2tons	¥ 9,600.00
• Total cost	¥ 17,400.00	(C\$2,625.66)

•

• ****These items were purchased at the china side and delivered by a truck**

•

•

•

A Receipt is issued upon its delivery

In Conclusion

1. Joo and I are delighted to have this opportunity to write this report on our small token project and experience in a very unfortunate place and extremely unfortunate people, the North Koreans.
2. We are grateful for not having to live in North Korea, and extremely thankful for being able to help them in a small way, feeding a very few numbers of starved dying children in North Korea.
3. Joo and I will be very happy to serve you as a mere messenger in between. Should you wish to help some of these children, do not hesitate to use us by donating any amount fund even 15 cents. That love fund will be personally assured to reach the very dying child or children in North Korea.
4. We cannot save them all, but feeding one dying child is what counts. One child at a time is a good start. Giving is an active love in action.
5. May God richly bless you.

Shalom

Joo and Jeong Sim (jeongsim40@gmail.com)
