PRESENTATION:

Fred Sirotek was introduced by **Ed Balys** who told us Fred was born in Prague and lived there until his family fled communism in 1948 to live in Germany and then in Canada. He is a charter member of the Rotary Club of West Ottawa.

Fred started by telling us Czechoslovakia was dominated by Hungary until 1918 when the Austro-Hungarian Empire was dissolved, and Czechoslovakia became independent. The Germans ruled it brutally from 1938 to 1945 to be replaced after the war by the Communists. The family, as refugees in Germany, applied to immigrate to Canada, but his father was initially refused on medical grounds. That decision was overturned when his father showed a letter of thanks from Viscount Alexander, at that point Governor General of Canada, for assistance given to downed Allied pilots during the war. In Ottawa the family worked in construction. Sirotek Construction Company was born after the family bought a plot of land to build a house and a neighbour asked them to build one for him as well. When they won a contract with the Department of Public Works to build a greenhouse on the Governor General's estate, they met Governor General Viscount Alexander.

Fred shared with us some of the hardships and memorable moments in the development of the family business. He had needed, for example, to adjust working hours to the Bay of Fundy tides during their construction of a ten-story building. He remarked on the difficult financial times such as those caused by labour unrest at the University of Waterloo, from which he concluded that it is always wise to deal with at least two banks. Unusually for a small construction company, Sirotek Construction tackled the international market with a joint venture in the Caribbean and seeking work in the middle east. In Saudi Arabia he had answered a 'facilitator's' request for upfront payments to guarantee work with an offer of half the profits from any work 'facilitated'. Offer refused. **Fred** sold all his real estate assets in 2007 when he retired.

Answering **Larry Chop Fred** on improvement in conditions in today's Czech Republic **Fred** said he had visited over the years, but that attitudes had been warped by decades of communism and corruption.

Dirk Keenan thanked **Fred** noting he had drawn three lessons from the talk: always have two banks; always have a counter proposal when asked for a bribe; and never lose control of circumstances.

HAPPY DOLLARS

Alan Bowles reminded **President Pardeep** of this program component and, of course, was then the obvious choice to collect. **Alan** started with few loonies to register his own "happiness" at having seen two excellent plays in Stratford. He said the production of Shakespeare's "Coriolanus" is a must-see experience.

-**Roy Miller** was happy at completing his first ever Spinoff editing job last week [for July 24] and he wanted to pay penance for missing some happy dollar comments. Too many members mumble into the microphone!

-**Cam Ross** has now been married for two weeks and so is officially off the market. He also

is happy that he has inherited the client list of a retiring financial planner. Very cool indeed.

-**Dave Morton** was happy to be at Camp Merrywood last week for Brockville Rotary Club's BBQ. 72 Easter Seals kid campers were there. He presented a cheque for Bushtukah's support to Easter Seals for the Ottawa River swim event two weeks before that raised a total \$62,000 for Easter Seals. Our Rotary Club has been a longtime supporter of "camperships" at Merrywood.

-**Sucha Mann** is back from a trip through Belleville and Whitby in his new hybrid car, which performed very well, used very little gasoline. It was easy to recharge along the way, at Ikea for example, where you can have breakfast while waiting.

- **Ginette Thomas** thanked **Fred** again for sharing his life story with us.

MEETING ENDS

President Pardeep again reminded us to "Be The Inspiration" and that "Rotarians are People of Action, helping make a difference" and to invite potential Rotarians to a meeting.
