TODAY'S PROGRAM

State Senator Kevin Hertel – Investments in Clean Water Infrastructure. Lake St. Clair's impact includes 4 million people depending on it for drinking water and \$1.6 billion in economic activity. Areas of concern when it comes to the Lake are coastline flooding and high levels of bacteria.

Senator Hertel has helped bring millions of State money to the area to address sinkholes, harmful algae blooms, deteriorating break walls, and the flooding of basements. His district stretches from the Grosse Pointes to Algonac so the shoreline is high on his list of priorities.
