# Rotary 4way Test Soccer Ball

## The 4way test is in 10 languages!

Ball comes deflated with its own pump and needle!

Kids worldwide love soccer and often use wadded up plastic bags as they have no money for a soccer ball.

A perfect 'leave behind' for those Rotary projects in third world countries or just in world wide travels.

Can be used as a fund raiser as well.

For example 'Sponsor a soccer ball to go to a child in Honduras for \$\$'. Cost \$12 per ball plus shipping, handling and Michigan sales tax if applicable (discounts available for larger quantities).

Balls can be picked up with no shipping charge. First shipment of balls arrive in mid to late Oct.
