

## UPDATE ON REMBA ISLAND PROJECT

Past President Bob W. has submitted the Final Report to TRF on behalf of the nine RC in Thurston Co. Our Club was the listed International Sponsor and that is why only our club is shown on the sign by the Nakuru TGRV RC. They took all of the bows on our collective behalf. Club members can take the 10,000 mile plus two our boat trip to Remba Island if they would like to see the project.

There will be some close up paper work, and the Lacey RC under the leadership of Dustin Wilson, will be leading the Phase 2 project at Remba Island, with the Thurston Co Rotary Water Committee and Cool Jazz funds providing the support.

Congratulation to The Rotary Club of Nakuru-The Great Rift Valley for the successful completion of Phase one of Remba Water and Sanitation Project.
