

Paul Harris Fellowship Nominations Criteria

1. Club Members currently not Paul Harris Fellows, who have contributed greatly to our club for several years. The criteria for first time recognition will satisfy a majority of the following:
 - A member in good standing for minimum of 2 years.
 - Has served as an active board member or active committee chair for a minimum of one full year, during which time they have shown commitment to their responsibilities.
 - Active participation in and supportive of the club's service and fellowship activities.
 - A record of regular attendance (a minimum target of 60%) although personal circumstances that preclude regular attendance may be taken into consideration
 - Supportive of The Rotary Foundation through annual personal donations

2. Club members who are already Paul Harris Fellows, who are worthy of additional recognition for their outstanding and ongoing contributions to Rotary within the club and at the district level, or who have made significant contributions in the community outside of Rotary. This would take second place to those being considered for first time PHFs and only when other awards such as Four Avenues of Service, DG Awards, etc. were not an option.

3. Non- Rotarians who have made significant contributions to Rotary or to the community where these contributions have been outstanding and supportive of the ideals of Rotary International. Such an award would promote a greater awareness of Rotary or Service within the community.
