

Student feedback

- My goal for this program was to get some idea of what I want to be “job wise”. I was overwhelmed with awesome careers at first. But now I actually think I’ve got one I mind for me.
- This Adventure was awesome, so unexpected how great it would be. This trip... was so rich in knowledge and great insight. The best aspect I can take away from this 3 day adventure is it has definitely pushed me into a career path that will benefit me for the rest of my life. Thank you, Rotary!
- Forestry has been at the back of my head my entire life. When I saw the presentation of Janice and Ron’s, I wanted to see what the big deal was. And IT’S HUGE. Forestry is the basis of life in Prince George. This program was very road based and made sure someone like me realized how important forestry is.
- My goal for this program was to see all the jobs in the forestry industries. They were met by all the speakers telling us what they do and even more.
- My favourite activity was planting trees. It helped a cause, was fun to do, and I had a great time doing it.
- My goal for this program was to go out and experience a variety of different study fields all linking to forestry and environmental studies. They were exceeded. I was not thinking I would have this much fun.
