

Riverfront Trail – modified route due to the construction taking place on the Johnston Bridge

The Trail is closed either side of Johnston Bridge, so we'll be walking the Trail in a counter-clockwise direction, turning left to go along Bowron rather than right under the railway bridge (if you go that way you'll have to turn around before you get to Johnston Bridge).

Johnston Bridge Loop is open but, again, to avoid having to turn around, keep left past the campground and use the pedestrian overpass to cross the railway and then the road crossing to head up Davie Street (Barkerville Brewing will be on your left), right along Carson...and there's Lebourdais Park!
