# **SHELTERBOX TENTS AWAITING IRAQI FAMILIES** FLEEING SINJAR MOUNTAIN

Thursday 14 August 2014

As the United Nations (UN) declares a 'Level 3 Emergency' for Iraq, ShelterBox partners with both the UN and the Agency for Technical Cooperation and Development (ACTED) to attempt to deliver vital shelter to families previously stranded on Sinjar Mountain.

Thousands of people, mostly religious minorities, were left stranded atop Sinjar Mountain after being driven from their homes by the advance of Islamic State militants in the region. The rapid advance of militant fighters has thrown Iraq into crisis and has now led to overseas involvement in the form of aid interventions. The UN estimates that 1.2 million Iragis have now been internally displaced by the crisis. ShelterBox has a wealth of experience in humanitarian responses in the region having been responding to the Syria crisis since early 2012.

The UN has issued a statement explaining 'Given the scale and complexity of the current humanitarian catastrophe, this measure [declaring a Level 3 Emergency] will facilitate mobilization of additional resources in goods, funds and assets to ensure a more effective response to the humanitarian needs of populations affected by forced displacements.'

The severity of this crisis is not to be overlooked, today's UN statement goes on to clarify that a Level 3 Emergency 'represents the highest level of humanitarian crisis'.

In a week that has seen both the UK and US completing aid drops of food and water into the region, the latest announcement from the UN comes amidst growing concerns for what lies ahead for the families stranded atop Sinjar Mountain. Concern is also mounting for those families who have, in recent nights, fled the mountain under the cover of darkness and are now in search of shelter.

ShelterBox currently has prepositioned stock in Iraq and will be working with UNHCR and ACTED to move 500 UN specification tents to Duhok, near the border with Syria, to be used to establish a camp to provide shelter for internally displaced people (IDP's) such as those fleeing Sinjar Mountain.

Although daytime temperatures in the region are currently high the ShelterBox Operations team are currently making provisions to supplement the current stock of shelter in Iraq with winterisation kits. This is more of a precautionary measure should the need for shelter sadly extend into the colder winter months.

#### LAST WEEK'S MEETING

President Eric opened the meeting and gave the invocation. Sharon led us in the national anthem.

Guests: Irena Shantz, Leasa Lindquist, and Theresa (a friend of Deborah Hyslop).

#### Rotary Moment:

Dave Rempel detailed the history of his and this club's involvement with the people of Novosibirsk, Russia. A 1992 student exchange led to the chartering of a Rotary club and some shared projects and back and forth visits.

#### Announcements:

There is a board meeting at Becker and Co offices on the 20<sup>th</sup> and we will have a business meeting on the 26<sup>th</sup>.

August 23<sup>rd</sup> is the garage sale to support the Nicaragua project. Please donate unbroken stuff.

August 24<sup>th</sup> is the big duck-number day at the Shantz's, starting at 3pm followed by a fireside. Please sign up to help.

Karen Duffield is asking for speaker suggestions and for people to respond to her email requests for a "Who's Who."

Dave Rempel soared close to the sun with glee over the great response to the Frisbee golf mixer with the Haney club on the 23<sup>rd</sup> of September. What is the melting point of beeswax anyway?

Lies, Damn Lies and Statistics ...:

Our Speaker this day was Mike Reddington from the White Rock Club, revealing the Survey Results for our Club.

A few months back 72% of us filled out the member engagement survey and today Mike brought us the results.

It turns out our results are not statistically significant as we didn't

have enough respondents for our club size. That didn't stop the results from having 3 significant figures reported anyway (i.e. instead of saying 5%, we used 5.54% because that is what the computer spat out.)

We had a higher survey completion rate than the district and it appeared that most people were happy with the club. The big one is membership for us, as it is around the world. We must find a way to make Rotary so much fun and so rewarding for the members that we just can't keep people away.

Betty combined winning the round robin, with losing in the final in the 50/50 draw. Thanks to all the "also rans" who pay up each and every week, year and year out and never win the pot let alone the chance to pull a card from the deck (tongue firmly in cheek).  $\bigcirc$
