Rotary Unites to Deliver Aid to Ukraine

Rotary members in North America, Argentina, and Europe are collaborating with a U.S.-based association of Ukrainian health care workers and using their connections to collect and ship more than 100 tons of critical medical supplies to Ukraine. Two cargo planes packed with tourniquets, blood-clotting gauze, blood pressure equipment, and other items have already been flown from the city of Chicago in the United States to Europe, where members help unload the supplies and get them to Ukraine. Rotary members in Ukraine, where Russia's military action has caused a humanitarian crisis, are in daily contact with hospitals to determine what supplies are needed most.

North American and Argentine Rotary clubs are combining their resources to purchase items from the list of needed supplies. They're also working with contacts at pharmaceutical companies and medical equipment manufacturers to arrange donations. A hospital in Peoria, Illinois, sent an ambulance, and members in Maine, USA, secured a C-arm, a mobile imaging device that can be used to X-ray people for shrapnel.

Contributions to the Disaster Response Fund in support of Ukraine can be made [here](#). All funds need to be received into the Disaster Response Fund by 30 April 2022 in order to qualify for use in support of the Ukrainian relief efforts.
