*Those little black spots are the flies*

*Sand fly bites are very itchy*

In the late 70's when I worked in Northern Alberta, we wore coveralls and spread insect repellent that was 72% DEET over all our exposed skin. That stopped them biting but they still flew into you ears, nostrils and mouth.

## MEETING OF AUGUST 1, 2019

**VISITING ROTARIANS – nil**

**GUESTS** – nil

Sand fly season is now upon us in Canada. Fortunately, they tend to be mostly in the northern parts of the provinces but what a pain in the butt for anyone living or working there.

## ATTENDANCE – 100%

Ron not only ran the meeting but filled in for the missing Sheriff. He was sad about the real Sheriff's absence so he fined everyone \$3. You can probably guess that Ron prides himself on his quick money grabs as Sheriff.
