**SIGNS SIGNS EVERYWHERE  
THERE'S SIGNS**

**I get most of my  
exercise these  
days from  
shaking my  
head in  
disbelief.**

**A woman with a  
salad walked past  
me in the restaurant  
and said you know a  
cow died so you  
could eat that  
beefburger. I said if  
you weren't eating  
its food it might  
have lived. 🙄**

The Sheriff decided to review weather advisories, watches and warnings as we have been seeing so many of them recently

Advisories and public weather statements can be used to cover a wide array of deteriorating weather conditions and are frequently used to describe weather events that can be cause for public concern.

Watches are issued when there is the potential for severe weather. When conditions indicate severe weather is forming, a watch will be released to make the public aware of what could happen.

A warning is the next step in the process. Warnings are issued when severe weather is occurring or is imminent.

## INVOCATION

Make it a habit to tell people thank you. To express your appreciation, sincerely and without the expectation of anything in return. Truly appreciate those around you, and you'll soon find many others around you. Truly appreciate life, and you'll find that you have more of it. – Ralph Marston
