SIGNS SIGNS EVERYWHERE THERE'S SIGNS

Global Grants – Making Sustainable Change in the World

Rotary clubs in Honduras and Pennsylvania, USA partnered together for a Global Grant to provide eye and vision care to needy residents in Honduras. During a 10-day long mission, Rotarians from both clubs worked to provide a wide variety of vision services through clinics held at local schools and neighborhoods. Over 1,200 individuals were evaluated and 600 received prescription eyeglasses. A local non-governmental organization will continue to provide eyeglasses and medications to those in need.

Improved eyesight can translate into improved educational or occupational opportunities, contributing greatly to improved quality of life for these Honduran residents. Clubs worldwide use these grants to make similar long-term, sustainable improvements in the world.

Every Rotary club can change lives around the world with the help of The Rotary Foundation....one program at a time.

What makes a Successful Global Grant Application?

Consult with local experts early in the planning process to build a strong program plan and global grant application. The district resource network (see below) can help.

To be approved, your application must clearly describe how your project, scholarship, or vocational training team:

- Is sustainable — include plans for long-term success after the global grant funds have been spent
- Includes measurable goals
- Aligns with one or more of Rotary's areas of focus
- Responds to real community needs
- Actively involves Rotarians and community members
- Meets the eligibility requirements in the grant application terms and conditions

The Rotary Foundation's grant model empowers Rotarians to continue advancing world understanding, goodwill, and peace through the implement of health, the support of education, and the alleviation of poverty.

Peace Club -

Lockie provided this picture for the start of 2022 activities.

Joint Meeting – a joint meeting with the RC Okanagan -Mission Club arranged for Monday, January 10th was cancelled due to Covid protocols. A future date for this get together has not been set yet.

Club Finances – Lockie reviewed our mid-year positions in our Operating and Project Accounts. The good news is that we are not in bad shape despite Covid's best efforts. The bad news. President Carola is going to have to postpone her flight to the edge of space in either Virgin Galactic's space plane or Bezos's Blue Origin.

Jack has reported very little interest in local Rotary clubs supporting the Peace Pole Initiative. As a result, Jack reported that the initiative will be released to the market to seek other supporters. This will benefit our club as it will all Jack to redirect his energy to other club activities.
