MEETING OF JANUARY 10 2019

VISITING ROTARIANS – none

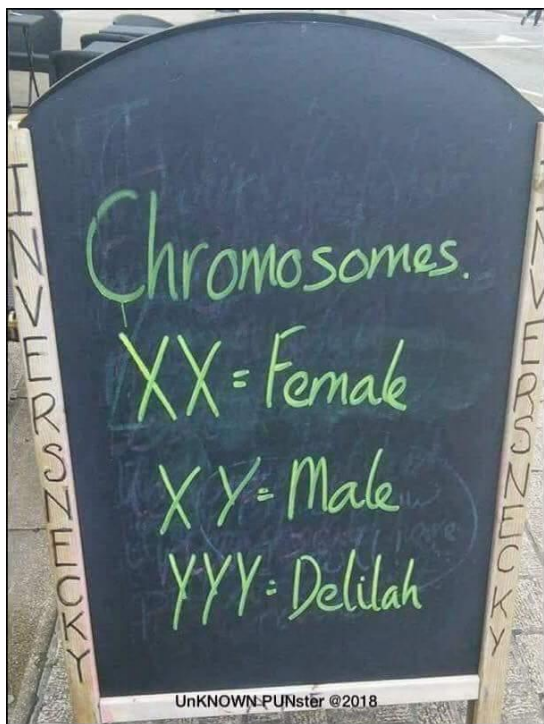

GUESTS – none

ATTENDANCE – 65%

This evening's Sheriff was John who had been reading up on environmental research on fresh water lakes and so talked on the Experimental Lakes Project. This project had been running since 1968 and while they study the effects many things, their greatest success occurred in 1973 when they proved that phosphorus cause rapid algae blooms and needed to be controlled. It was for this reason that it was removed from laundry soaps. They are currently studying the effects of birth control products in fish, bitumen (from tar sand) spills and methylmercury (from mercury spills) which is a neurotoxin that effects humans, especially fetuses. While a little dry, it was an interesting presentation and John was applauded roundly by the members..

ROTARY PROJECTS IN A BOTTLE NEWS

A Committee meeting held on Jan. 04th with regards to changing our name so that we could give to other local charities. The New name is going to be "Rotary Lights in a Bottle" with "Cottonwoods in a Bottle" being reserved for that function.

A two-sided brochure has been designed by Brian Elliott. It will be professionally printed.

Brenda Madigan has offered to do the stock control so at all times we know what's in stock and what is out, and has it been sold.

Our first Sale is on February 13th, at KGH from 10:00am until 3:00pm

Thank you for all your support and here's another successful Bottle Campaign.

Sincerely,
Glenna Gillan
