**SIGNS SIGNS EVERYWHERE
THERE'S SIGNS**

You have been warned! Pee on the beach and we post your video on YouTube!

It was a pleasant evening for the Sheriff. A little humour and then it was time to collect the fines. Feeling no remorse, He smiled and watched as money accumulated in the collection tray.

Pollinator Garden – Fall isn't a great time to put in a new garden so likely we will be looking for locations in the Spring 2024.

Change of Meeting Day – the members are exploring changing our meetings to Tuesday evening. This will make it easier for all members to attend the meetings.

Pollinator Fundraiser – Carola has been hard at work knitting bees and flowers to be sold as a fundraiser items. Cost for either a bee or flower is \$15.

**You're not
fat, you're
just... easier
to see.**

Bizwaremagic's Funny Quotes

Our guest speaker this week was Bettina Muller who is the Director of Philanthropy, Corporate and Community Giving. Bettina spoke on the long relationship between Rotary and the KGH Foundation and then introduced to us their latest acquisition drive. Did you know that KGH has one of the oldest MRI machines in the country? Having had an MRI done on me a few weeks back I had no reason to doubt her. The sheer noise level and the banging sounds it makes while operating can be alarming despite having ear plugs installed. The KGH Foundation want to acquire a new machine with all the latest bells and whistles for our hospital. The problem? Medical grade equipment is not cheap. Enough said, you can see where this going.

We also got a nice thank you note from Bettina.

“I wanted to send another note of thanks for allowing me to meet some of your lovely members and share a little bit about what the KGH Foundation has been up to.

I thoroughly appreciated getting to know almost all of you; the conversations were both enlighten and simply enjoyable. If you ever wanted to participate in the JoeAnna’s House share-a-meal program, just let me know and I’ll send some further information around to anyone who’s interested.

Let’s keep in touch!”
