Last WEEK'S MEETING

No recording of the meeting

SIGNS SIGNS EVERYWHERE THERE'S SIGNS

Air Canada Help Desk

The sound of \$5 bills fluttering into the fines tray brought a smile to the Sheriff's face. Nothing more needs to be said.

WARNING

When you drink Vodka over ice, it can give you kidney failure.
When you drink Rum over ice, it can give you liver failure.
When you drink Whisky over ice, it can give you heart problems.
When you drink Gin over ice, it can give you brain problems.
Apparently, ice is really bad for you;
warn all your friends!!!

A small image of a Minion character from the movie "Despicable Me". The Minion is yellow with large eyes and a sad expression, wearing its signature blue overalls.

Club Recognition - Rotary Citation Award to our club for 2021-22

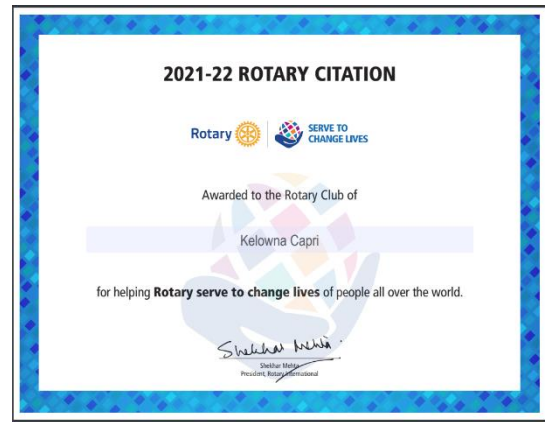

Rotary Foundation –

WHAT ARE ROTARY'S AREAS OF FOCUS?

We concentrate our efforts to maximize our local and global impact. Our most successful and sustainable projects and activities tend to address these causes, and all humanitarian projects, scholars, and vocational training teams funded by The Rotary Foundation's global grants work toward specific goals in these areas of focus:

- **Peacebuilding and conflict prevention:** Rotary encourages conversations to foster understanding within and across cultures. We train adults and young leaders to prevent and mediate conflict and help refugees who have fled dangerous areas.
- **Disease prevention and treatment:** We educate and equip communities to stop the spread of life-threatening diseases like polio, HIV/AIDS, and malaria. We improve and expand access to low-cost and free health care in developing areas.
- **Water, sanitation, and hygiene:** We support local solutions to bring clean water, sanitation, and hygiene to more people. We share our expertise and work alongside community leaders and educators to make sure our projects succeed in the long term.

Learn about the other areas of focus next week!

Bill Fennel's Bench - a group of Rotarians and friends gathered on Oct 1st to dedicate a bench at Rotary Park in memory of Rotarian Bill Fennel. As you can see by the crowd Bill was well liked including the weather gods.

Bob remembering Bill Fennell

Environmental Service Project – District 5060 has begun to promote an Environmental Service Project, the building of a Pollinators Highway. Please watch the following YouTube video to get a better feel of what they have in mind.

https://www.youtube.com/watch?v=0Sgar9Jl2_w

Is there something hands-on our club can put together to help our pollinators?

THIS WEEK'S REGULAR MEETING

The club meeting begins Thursday, Oct 6th at 6:45 pm following dinner that begins shortly after 6 pm.

HUMOUR

GUEST SPEAKER

Gordon Lovegrove is thanked by Rusty for his presentation Photo by Peter Spek

Our guest speaker this evening was Gordon Lovegrove who dropped by to talk about a topic dear to his heart, a tram-train that runs on hydrogen. Why hydrogen? Because hydrogen is already in development and it's environmentally friendlier than petrochemicals. Gordon envisions a hydrogen tram-train network that begins in the cities of the Okanagan Valley and eventually interconnect from the CN rail link through Kamloops to Amtrac in Washington. His long-term goal is a faster, cleaner transportation system that gets people out of their cars. Seem like a pipe dream? Why not read or watch Pierre Berton's National Dream?
