Jack sent me some images that are thought provoking about our world. I'm not sure what the current statistics are but a part of me fears we haven't made progress. All too often we substitute talk for action,

Here are a couple of examples of what he sent me about knowing your world...

Europe – blue is the consumption of gasoline; yellow is the production of gasoline

Brazil – green is people living with less than \$10 per month, yellow is people living with less than \$100 per month, blue is people living with less than \$1000 per month and the white stars are people living with more than \$100,000 per month

Munson Pond tree plant -

SATURDAY, OCTOBER 23rd - Rotary clubs are being involved in planting trees at the west end of Munson Pond. We have been given 40 Birch trees and they need to be planted this Fall.

The City of Kelowna will dig the holes and we would then take the trees out of their pots, add some soil enhancement to the hole and plant the tree. We anticipate that we should have about 25 volunteers to do this and the job should take about 3 hours.

Let President Carola know if you would like to participate in this project.

East Kelowna Hall – on September 26th, Bob lead a small work party to install a plaque at East Kelowna Hall to commemorate the renovation done there by RC Kelowna Capri and RC Kelowna (Downtown).
